SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-K/A

(Amendment No. 1)

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2020

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-39583

SPORTS ENTERTAINMENT ACQUISITION CORP.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

85-2324373

(I.R.S. Employer Identification No.)

Golden Bear Plaza, 11760 US Highway 1, Suite W506
(Address of principal executive offices)

19004
(Zip Code)

Registrant's telephone number, including area code: **(561) 402-0741**

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol</u>	<u>Name of each exchange on which registered</u>
Units, each consisting of one share of Class A Common Stock, \$0.0001 par value, and one-half of one redeemable Warrant	SEAH.U	New York Stock Exchange LLC
Redeemable common stock included as part of the Units	SEAH	New York Stock Exchange LLC
Warrants included as part of the Units, each whole Warrant exercisable for one share of Class A Common Stock at an exercise price of \$11.50	SEAH WS	New York Stock Exchange LLC

Securities registered pursuant to Section 12(g) of the Act: None

Yes No Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Yes No Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Yes No Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

There was no aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2020, the last business day of the registrant's most recently completed second fiscal quarter, because the registrant was not in existence on that date.

As of March 31, 2021, 45,000,000 shares of Class A common stock, \$0.0001 par value, and 11,250,000 shares of Class B common stock, \$0.0001 par value, were issued and outstanding.

EXPLANATORY NOTE

This Amendment No. 1 on Form 10-K/A (this “Amendment”) amends the Annual Report on Form 10-K of Sports Entertainment Acquisition Corp. (“the Company”) for the year ended December 31, 2020, initially filed with the Securities and Exchange Commission on March 30, 2021 (the “Original Filing”), which was inadvertently and prematurely filed without electronic signature pages or final approval from the Company or the Company’s auditor. Accordingly, this filing restates in its entirety the Original Filing. All references to Form 10-K which follow, including, without limiting the foregoing, exhibits filed pursuant to Items 601(b)(31) and 601(b)(32) of Regulation S-K, are intended to refer to this Amendment.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS AND RISK FACTOR SUMMARY

Some statements contained in this Annual Report on Form 10-K (this “Form 10-K”) are forward-looking within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the Private Securities Litigation Reform Act of 1995. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. The forward-looking statements contained in this Form 10-K are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, the following risks, uncertainties and other factors:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination, particularly given competition from other blank check companies and financial and strategic buyers;
- our expectations around the performance of the prospective target business or businesses including competitive prospects of the business following our initial business combination;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- our ability to consummate an initial business combination amidst the uncertainty resulting from the ongoing COVID-19 pandemic, and the effects of the ongoing pandemic on the financial technology sector, the economy and any business or businesses with which we consummate our initial business combination;
- the ability of our officers and directors to generate a number of potential acquisition opportunities;
- our public securities’ liquidity and trading;
- the lack of a market for our securities;
- the use of funds not held in the Trust Account or available to us from interest income on the Trust Account balance;
- the Trust Account not being subject to claims of third parties;
- our financial performance; or
- the impacts of COVID-19.

Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

PART I

Item 1. Business

We are a blank check company incorporated on July 30, 2020 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this Form 10-K as our initial business combination.

On October 6, 2020 the Company consummated the Initial Public Offering (the “Initial Public Offering”) of 40,000,000 units (the “Units”). Each Unit consists of one share of Class A common stock, \$0.0001 par value per share (the “Class A Common Stock” and, with respect to the Class A Common Stock included in the Units sold, the “Public Shares”), and one-half of one redeemable warrant of the Company (a “Warrant” and, with respect to the Warrants included in the Units sold, the “Public Warrants”), with each whole Warrant entitling the holder thereof to purchase one share of Class A Common Stock at an exercise price of \$11.50 per share, subject to adjustment. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$400,000,000. The Company granted the underwriters in the IPO (the “Underwriters”) a 45-day option to purchase up to 6,000,000 additional Units to cover over-allotments, if any. On October 14, 2020, the Underwriters partially exercised the over-allotment option and on October 15, 2020, purchased an additional 5,000,000 Units (the “Over-Allotment Units”), generating gross proceeds of \$50,000,000.

Simultaneously with the closing of the IPO, the Company completed the private sale (the “Private Placement”) of an aggregate of 10,000,000 Warrants (the “Private Placement Warrants”) to Sports Entertainment Acquisition Holdings LLC, a Delaware limited liability company (the “Sponsor”), and PJT Partners Holdings LP (“PJT”) at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$10,000,000. In connection with the Underwriters’ partial exercise of their over-allotment option, the Sponsor and PJT simultaneously purchased an additional 944,444 and 55,556 Private Placement Warrants, respectively, generating gross proceeds to the Company of \$1,000,000.

Following the closing of the Initial Public Offering on October 6, 2020, an amount of \$400,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”), located in the United States and invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below. Following the closing of the sale of Over-Allotment Units on October 15, 2020, an amount of \$50,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Over-Allotment Units and the simultaneous sale of additional Private Placement Warrants to the Sponsor and PJT was placed in the Trust Account and invested in same manner as the proceeds from the sale of the Units, as described above.

While we may pursue an acquisition opportunity in any industry or sector, we intend to focus on the sports and entertainment sectors as well as the technology and services that are associated with these verticals. Examples of these technology/service areas include media, ticketing, payments processing, entertainment travel, gaming, loyalty programs and many others. Our founders have knowledge of these areas and we believe a business operating in one of these areas would benefit from our operational expertise and the experience and networks of our management team.

Business Strategy

We believe that many companies operating in the sports and entertainment sectors, and the technology and service areas that enable them, have characteristics that make them attractive targets. Specifically, many companies in these sectors achieve high growth and have the potential to serve as platforms that can be utilized for future acquisitions. These businesses often emerge within the ecosystems of the owners of content and other intellectual property, and require different applications of capital and specific management experiences to grow. The application of third-party capital and expertise has the potential to enable growth outside of the original focus area. Examples of businesses that have followed this trajectory include ESPN, Ticketmaster/StubHub, Fanatics, On Location Experiences and many others. Furthermore, the evolution of technology and the way that consumers engage with content and experiences, whether live, broadcast or streamed, is resulting in significant disruption within the sports and entertainment verticals. We believe that there are highly attractive opportunities within the marketplace today, and we have confidence in our ability to identify companies that are well positioned in the changing landscape. Additionally, as a result of the COVID-19 pandemic and its aftermath, multiple segments within our focus areas are experiencing stresses that we believe will lead to recapitalization opportunities and reinvention strategies. We believe our management capabilities, our balance sheet characteristics and our financial acumen will be attractive to many potential targets. Our acquisition and value creation strategy will be to identify, acquire and operate a company in the sports and entertainment sectors, or the technology and media sub-verticals that enable them.

We expect to be provided with ideas and deal flow from many sources, including various investment banks with whom we have relationships. In addition, an affiliate of PJT, an investor in our Sponsor and holder of Private Placement Warrants, is an affiliate of PJT Partners LP.

We believe that we will have opportunities to leverage our relationship with several investment banks, which will present us with certain advantages in identifying prospective target companies in the areas that we determine are appropriate and attractive for our initial business combination.

Our selection process will capitalize on the extensive network of relationships, deep industry experience and extensive deal sourcing capabilities of Mr. Grubman, the Chairman of our Board of Directors and our Chief Financial Officer, Mr. Collins, our Chief Executive Officer and Mr. Shumway, an investor in our Sponsor, to access a broad spectrum of opportunities, with the goal of acquiring a company that complements their experience and can benefit from their operational and financial expertise.

We expect to leverage the collective and distinctive capabilities of Mr. Grubman, Mr. Collins and Mr. Shumway, including their:

- deep and broad networks of relationships in sports and entertainment across leagues, team owners, commissioners, athletes and industry executives to create a significant pipeline of opportunities;
- extensive experience of sourcing, structuring, acquiring, operating, developing, growing, financing and selling businesses;
- ability to identify businesses that we believe will be well received in the public markets based on their deep understanding of public market performance and requirements;
- significant M&A experience, including in consummating transactions at attractive valuations across a wide range of sectors at various points in the cycle;
- ability to identify businesses with significant operational and financial improvement opportunities;
- history in accessing the capital markets across various business cycles, including financing businesses and assisting companies with the transition to public ownership.

In addition to Mr. Grubman's and Mr. Collins's own sourcing and evaluation capabilities, our board of directors is comprised of leading executives with public company experience, as well as experience in a variety of relevant industries. We believe our directors add depth to our expertise, broaden our network of relationships, and provide exceptional governance to our company.

We expect potential transaction sources to include publicly traded companies, corporate carve-outs and founder/management-owned entities.

Our Acquisition Process

In evaluating a prospective target business, we expect to conduct an extensive due diligence review, which may encompass, as applicable and among other things, meetings with members of the target's management and other employees, document reviews, inspection of facilities and a review of financial and other information about the target and its industry. We will also benefit from Mr. Grubman's, Mr. Collins's and Mr. Shumway's networks of relationships with senior executives, board members and members of executive management teams to provide specialized insights into their areas of expertise as well as leverage their operational and capital planning experience.

Each of our directors and officers, directly or indirectly, owns founder shares and/or Private Placement Warrants and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.

Certain of our officers and directors presently have, and any of them in the future may have, additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity subject to his or her fiduciary or contractual obligations. As a result, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, then, subject to such officer's and director's fiduciary duties under Delaware law, he or she will need to honor such fiduciary or contractual obligations to present such business combination opportunity to such entity before we can pursue such opportunity. If those other entities decide to pursue any such opportunity, we may be precluded from pursuing the same. However, we do not expect these duties to materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation provides that we will renounce our interest in any business combination opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the company and it is an opportunity that we are able to complete on a reasonable basis.

Initial Business Combination

The New York Stock Exchange LLC (the "NYSE") rules require that an initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting discount). We refer to this as the 80% of net assets test. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, with respect to the satisfaction of such criteria. We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination, although there is no assurance that will be the case.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own or acquire shares will own or acquire 100% of the outstanding equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in our initial business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target, or issue a substantial number of new shares to third-parties in connection with financing our initial business combination. In such cases, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the outstanding equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be valued for purposes of the 80% of net assets test. If our initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for the purposes of a tender offer or for seeking stockholder approval, as applicable.

Effecting Our Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time. We intend to effectuate our initial business combination using cash from the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, our capital stock, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt or not all of the funds released from the Trust Account are used for payment of the consideration in connection with our initial business combination or used for redemption of our Public Shares, we may apply the balance of the cash released to us from the Trust Account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We may seek to raise additional funds in connection with the completion of our initial business combination through a private offering of equity securities (including pursuant to a specified future issuance) or debt securities or loans, and we may effectuate our initial business combination using the proceeds of such offerings or loans rather than using the amounts held in the Trust Account.

In the case of an initial business combination funded with assets other than the Trust Account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by applicable law or we decide to do so for business or other reasons, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately (including pursuant to a specified future issuance) or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

Sources of Target Businesses

We believe our management team's and Mr. Shumway's significant operating and transaction experience and relationships with companies will provide us with a substantial number of potential business combination targets. Over the course of their careers, the members of our management team and Mr. Shumway have developed a broad network of contacts and corporate relationships around the world. In addition, PJT Partners LP, an affiliate of PJT, a non-voting investor in our Sponsor and holder of Private Placement Warrants, is a leading investment bank that maintains a broad network of relationships in numerous industry segments within our focus areas.

We believe this network provides us with a robust and consistent flow of acquisition opportunities which were proprietary or where a limited group of investors were invited to participate in the sale process. We believe that this network of contacts and relationships will provide us with important sources of acquisition opportunities. In addition, we anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our Sponsor, its members, or our officers or directors. In the event we seek to complete our initial business combination with a business that is affiliated with our Sponsor, its members, or our officers or directors, we, or a committee of independent and disinterested directors, will obtain an opinion from an independent investment banking firm or from an independent accounting firm, that such initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

If our Sponsor, any of its members, or any of our officers or directors becomes aware of a business combination opportunity that is suitable for one or more entities to which it, he or she has fiduciary, contractual or other obligations or duties, it, he or she will honor these obligations and duties to present such business combination opportunity to such entities first, and only present it to us if such entities reject the opportunity and he or she determines to present the opportunity to us (including as described above). In addition, we may, at our option, pursue an affiliated joint acquisition opportunity with an entity to which our Sponsor, any of its members, or an officer or director has a fiduciary, contractual or other obligation or duty. Any such parties may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such parties.

Selection of a Target Business and Structuring of our Initial Business Combination

The NYSE rules require that an initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting discount). The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation or value of comparable businesses. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, with respect to the satisfaction of such criteria. We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination, although there is no assurance that will be the case. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. If less than 100% of the outstanding equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be valued for purposes of the 80% of net assets test. There is no basis for investors to evaluate the possible merits or risks of any target business with which we may ultimately complete our initial business combination.

To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial, operational, legal and other information which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination or Certain Stockholder Votes to Amend our Amended and Restated Certificate of Incorporation

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, calculated as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding Public Shares, subject to the limitations described herein. At completion of the business combination, we will be required to purchase any Public Shares properly delivered for redemption and not withdrawn. The amount in the Trust Account is initially anticipated to be \$10.00 per Public Share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the Underwriters. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. There will be no redemption rights upon the completion of our initial business combination with respect to our Warrants. Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any Public Shares held by them in connection with the completion of our initial business combination.

Manner of Conducting Redemptions in Conjunction with a Stockholder Vote on our Initial Business Combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their Public Shares upon the completion of our initial business combination either: (1) in connection with a stockholder meeting called to approve the business combination; or (2) by means of a tender offer. Except as required by applicable law or stock exchange rules, the decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would typically require stockholder approval. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by applicable law or stock exchange listing requirement or we choose to seek stockholder approval for business or other reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we or our Sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A Common Stock in the open market if we elect to redeem our Public Shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of Public Shares which are not purchased by our Sponsor, which number will be based on the requirement that we may not redeem Public Shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriting commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirements, or we decide to obtain stockholder approval for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders will count toward this quorum and pursuant to the letter agreement, our initial stockholders have agreed to vote their founder shares and any Public Shares purchased during or after the Initial Public Offering (including in open market and privately negotiated transactions) in favor of our initial business combination. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our initial stockholders, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its Public Shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation provides that in no event will we redeem our Public Shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriting commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed initial business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed initial business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A Common Stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all shares of Class A Common Stock submitted for redemption will be returned to the holders thereof.

Limitation on Redemption upon Completion of our Initial Business Combination if We Seek Stockholder Approval

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in the Initial Public Offering, which we refer to as the "Excess Shares." Such restriction shall also be applicable to our affiliates. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed initial business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in the Initial Public Offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem no more than 15% of the shares sold in the Initial Public Offering without our prior consent, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with an initial business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Redemption of Public Shares and Liquidation if No Initial Business Combination

Our amended and restated certificate of incorporation provides that we will have only 24 months from the closing of the Initial Public Offering to complete our initial business combination. If we do not complete our initial business combination within such 24-month period or during any extended time that we have to consummate an initial business combination beyond 24 months as a result of a stockholder vote to amend our amended and restated certificate of incorporation (an “Extension Period”), we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our Warrants, which will expire worthless if we fail to complete our initial business combination within the 24-month time period.

Tendering Stock Certificates in Connection with a Tender Offer or Redemption Rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, rather than simply voting against the initial business combination at the holder’s option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our Public Shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements, which will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two business days prior to the scheduled vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Pursuant to the tender offer rules, the tender offer period will be not less than 20 business days and, in the case of a stockholder vote, a final proxy statement would be mailed to public stockholders at least 10 days prior to the stockholder vote. However, we expect that a draft proxy statement would be made available to such stockholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their Public Shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certifying the shares or delivering them through The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System. The transfer agent will typically charge the tendering broker a fee of approximately \$80 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders’ vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an “option window” after the completion of the business combination during which he or she could monitor the price of the company’s stock in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become “option” rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder’s election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or two business days prior to the scheduled date of the stockholder meeting set forth in our proxy materials, as applicable (unless we elect to allow additional withdrawal rights). Furthermore, if a holder of a Public Share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our Public Shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the Trust Account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed initial business combination is not completed, we may continue to try to complete an initial business combination with a different target until 24 months from the closing of the Initial Public Offering or during any Extension Period.

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic business combinations. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than we do. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation may give others with greater resources an advantage in pursuing the initial business combination of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding Warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Employees

We currently have two officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the initial business combination process we are in. We do not intend to have any full-time employees prior to the completion of our initial business combination.

Item 1A. Risk Factors.

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this Form 10-K, before making a decision to invest in our Units, Warrants or Class A Common Stock. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks relating to Our Business and the Initial Business Combination

Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.

We may not hold a stockholder vote to approve our initial business combination unless the business combination would require stockholder approval under applicable law or stock exchange listing requirements or if we decide to hold a stockholder vote for business or other reasons. For instance, the NYSE rules currently allow us to engage in a tender offer in lieu of a stockholder meeting but would still require us to obtain stockholder approval if we were seeking to issue more than 20% of our outstanding shares to a target business as consideration in any business combination. Therefore, if we were structuring a business combination that required us to issue more than 20% of our outstanding shares, we would seek stockholder approval of such business combination. However, except as required by applicable law or stock exchange rules, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction. Accordingly, we may consummate our initial business combination even if holders of a majority of our outstanding Public Shares do not approve of the business combination we consummate.

If we seek stockholder approval of our initial business combination, our initial stockholders have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Our initial stockholders, officers and directors have agreed (and their permitted transferees will agree) to vote any founder shares and any Public Shares held by them in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need 16,875,001, or 37.5% (assuming all issued and outstanding shares are voted and the option to purchase additional Units is not exercised), of the 45,000,000 Public Shares sold in the Initial Public Offering to be voted in favor of a transaction, in order to have such initial business combination approved. We expect that our initial stockholders and their permitted transferees will own at least 20% of our outstanding shares of common stock at the time of any such stockholder vote. Accordingly, if we seek stockholder approval of our initial business combination, it is more likely that the necessary stockholder approval will be received than would be the case if our initial stockholders and their permitted transferees agreed to vote their founder shares in accordance with the majority of the votes cast by our public stockholders.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of the initial business combination.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of our initial business combination. Since our board of directors may complete an initial business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the initial business combination, unless we seek such stockholder vote. Accordingly, if we do not seek stockholder approval, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into an initial business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. The amount of the deferred underwriting commissions payable to the Underwriters will not be adjusted for any shares that are redeemed in connection with a business combination and such amount of deferred underwriting discount is not available for us to use as consideration in an initial business combination. Furthermore, in no event will we redeem our Public Shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriting commissions (so that we are not subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriting commissions or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination (including, potentially, with the same target). Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us. If we are able to consummate an initial business combination, the per-share value of shares held by non-redeeming stockholders will reflect our obligation to pay the deferred underwriting commissions.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights and, therefore, we will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the Trust Account to pay the purchase price or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the Trust Account to meet such requirements or arrange for third-party financing. In addition, if a larger number of shares is submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the Trust Account or arrange for third-party financing. Raising additional third-party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. Furthermore, this dilution would increase to the extent that the anti dilution provisions of the Class B common stock result in the issuance of Class A shares on a greater than one to one basis upon conversion of the Class B common stock at the time of our business combination. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.

If our initial business combination agreement requires us to use a portion of the cash in the Trust Account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the Trust Account until we liquidate the Trust Account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the Trust Account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

The requirement that we complete our initial business combination within the prescribed timeframe may give potential target businesses leverage over us in negotiating an initial business combination and may decrease our ability to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning an initial business combination will be aware that we must complete our initial business combination within 24 months from the closing of the Initial Public Offering or seek a stockholder approved extension of such period. Consequently, such target business may obtain leverage over us in negotiating an initial business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

The due diligence process that we undertake in connection with our initial business combination may not reveal all facts that may be relevant in connection with an investment.

We plan to conduct due diligence in connection with our initial business combination that we deem reasonable and appropriate based on the facts and circumstances applicable. When conducting due diligence, we may be required to evaluate important and complex business, financial, tax, accounting, technological, environmental, social, governance and legal and regulatory issues. Outside consultants, legal advisors and accountants may be involved in the due diligence process in varying degrees depending on the target of the potential business combination and the parties involved. Nevertheless, when conducting due diligence and making an assessment regarding a potential business combination, we will rely on the resources available to us, including information provided by the target of the potential business combination and, in some circumstances, third-party investigations, and such an investigation will not necessarily result in the business combination ultimately being successful.

Moreover, the due diligence investigation that we will carry out may not reveal or highlight all relevant facts (including bribery, fraud or other illegal activities) or risks that are necessary or helpful in evaluating such potential business combination. Instances of bribery, fraud, accounting irregularities and other improper, illegal or corrupt practices can be difficult to detect. Such misconduct may undermine our due diligence efforts with respect to the target of the potential business combination. Further, we may not identify or foresee future developments that could have a material adverse effect on the target, such as misconduct by personnel at the target. Financial fraud or other deceptive practices, or failures by such personnel to comply with anti-bribery, trade sanctions or other legal and regulatory requirements, could cause significant legal, reputational and business harm to us.

Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the ongoing coronavirus (COVID-19) pandemic and the status of debt and equity markets.

On March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a “pandemic.” The COVID-19 pandemic has resulted, and other infectious diseases could result, in a widespread health crisis that has and will continue to adversely affect economies and financial markets worldwide, and the business of any potential target business with which we consummate a business combination may also be materially and adversely affected. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 restrict travel, limit the ability to conduct due diligence and have meetings with potential investors or the target company’s personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner, or if COVID-19 causes a prolonged economic downturn. The effects of the COVID-19 pandemic on businesses, and the inability to accurately predict the future impact of the pandemic on businesses, has also made determinations and negotiations of valuation more difficult, which could make it more difficult to consummate a business combination transaction.

The extent to which COVID-19 ultimately impacts our identification and consummation of a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity and spread of COVID-19 and actions to contain the virus or treat its impact, among others. While vaccines for COVID-19 are being, and have been developed, there is no guarantee that any such vaccine will be durable and effective consistent with current expectations and we expect it will take significant time before the vaccines are available and accepted on a significant scale. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected.

In addition, our ability to coordinate as a team or to consummate a business combination may be dependent on the ability to raise equity and debt financing which may be adversely impacted by COVID-19 and other events, including as a result of increased market volatility, decreased market liquidity and third party financing being available on terms acceptable to us or at all.

We may not be able to complete our initial business combination within the prescribed timeframe, in which case we would cease all operations except for the purpose of winding up and we would redeem our Public Shares and liquidate, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our Warrants will expire worthless.

Our amended and restated certificate of incorporation provides that we must complete our initial business combination within 24 months from the closing of the Initial Public Offering. We may not be able to find a suitable target business and complete our initial business combination within such time period. If we have not completed our initial business combination within such time period or during any Extension Period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. In such case, our public stockholders may only receive \$10.00 per share, and our Warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

If we seek stockholder approval of our initial business combination, our Sponsor, directors, officers, advisors and their affiliates may elect to purchase Public Shares or Public Warrants from public stockholders, which may influence a vote on a proposed initial business combination and reduce the public “float” of our Class A Common Stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our Sponsor, directors, officers, advisors or their affiliates may purchase Public Shares or Public Warrants or a combination thereof in privately negotiated transactions or in the open market, although they are under no obligation to do so. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the Trust Account will be used to purchase Public Shares or Public Warrants in such transactions.

Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our Sponsor, directors, officers, advisors or their affiliates purchase Public Shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of such purchases could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination, or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of Public Warrants could be to reduce the number of Public Warrants outstanding or to vote such Warrants on any matters submitted to the Warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

In addition, if such purchases are made, the public “float” of our Class A Common Stock or Public Warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to obtain or maintain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our Public Shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, proxy materials or tender offer documents, as applicable, that we will furnish to holders of our Public Shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem Public Shares, which may include the requirement that a beneficial holder must identify itself. For example, we may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the initial vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. In the event that a stockholder fails to comply with these or any other procedures, its shares may not be redeemed.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a “blank check” company under the United States securities laws. However, because we had net tangible assets in excess of \$5,000,000 upon the successful completion of the Initial Public Offering and the sale of the Private Placement Warrants and filed a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if the Initial Public Offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the Trust Account to us unless and until the funds in the Trust Account were released to us in connection with our completion of an initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 15% of our Class A Common Stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A Common Stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in the Initial Public Offering without our prior consent, which we refer to as the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

Because of our special purpose acquisition company structure and limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on our redemption of our Public Shares, or less than such amount in certain circumstances, and our Warrants will expire worthless.

We expect to encounter competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess similar technical, human and other resources to ours, and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, because we are obligated to pay cash for the shares of Class A Common Stock which our public stockholders redeem in connection with our initial business combination, target companies will be aware that this may present closing risk by reducing the resources available to us for our initial business combination. Additionally, potential target companies may be less inclined to consummate a transaction with us because definitive documentation for such a transaction will preclude any recourse against our Trust Account, meaning that potential counterparties may determine that they do not have adequate contractual remedies in the event a transaction fails to close. These factors may place us at a competitive disadvantage in successfully negotiating an initial business combination. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our Trust Account and our Warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation.

If the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants not being held in the Trust Account are insufficient to allow us to operate for at least the next 24 months, we may be unable to complete our initial business combination, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our Warrants will expire worthless.

The funds available to us outside of the Trust Account may not be sufficient to allow us to operate for at least the next 24 months, assuming that our initial business combination is not completed during that time. We believe that the funds available to us outside of the Trust Account will be sufficient to allow us to operate for at least the next 24 months; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent or merger agreements designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed initial business combination, although we do not have any current intention to do so. If we entered into a letter of intent or other agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our Trust Account and our Warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation.

If the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants not being held in the Trust Account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our Sponsor or management team to fund our search for an initial business combination, to pay our franchise and income taxes and to complete our initial business combination. If we are unable to obtain these loans, we may be unable to complete our initial business combination.

As of December 31, 2020, we had cash of \$1,087,876 held outside of the trust. If we are required to seek additional capital, we would need to borrow funds from our Sponsor, management team or other third parties to operate or may be forced to liquidate. None of our Sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the Trust Account or from funds released to us upon completion of our initial business combination. Up to \$2,000,000 of such loans may be converted into private placement-equivalent Warrants at a price of \$1.00 per Warrant at the option of the lender. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our Sponsor or an affiliate of our Sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our Trust Account. If we are unable to obtain these loans, we may be unable to complete our initial business combination. If we do not complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. Consequently, our public stockholders may only receive approximately \$10.00 per share on our redemption of our Public Shares, and our Warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the Trust Account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the Trust Account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the Trust Account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the Trust Account. If any third party refuses to execute an agreement waiving such claims to the monies held in the Trust Account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Making such a request of potential target businesses may make our acquisition proposal less attractive to them and, to the extent prospective target businesses refuse to execute such a waiver, it may limit the field of potential target businesses that we might pursue. WithumSmith+Brown, PC, our independent registered public accounting firm, and the Underwriters of the Initial Public Offering, will not execute agreements with us waiving such claims to the monies held in the Trust Account.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the Trust Account for any reason. Upon redemption of our Public Shares, if we do not complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the ten years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the Trust Account, due to claims of such creditors. Pursuant to a letter agreement, our Sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the Underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our Sponsor to reserve for such indemnification obligations, nor have we independently verified whether our Sponsor has sufficient funds to satisfy its indemnity obligations and believe that our Sponsor's only assets are securities of our company. Therefore, we cannot assure you that our Sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the Trust Account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per Public Share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your Public Shares. None of our officers, directors or members of our Sponsor will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to complete our initial business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations. In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading in securities and that our activities do not include investing, reinvesting, owning, holding or trading "investment securities" constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete an initial business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the Trust Account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. The Trust Account is intended as a holding place for funds pending the earliest to occur of: (i) the completion of our initial business combination; (ii) the redemption of any Public Shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity; or (iii) absent an initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period, our return of the funds held in the Trust Account to our public stockholders as part of our redemption of the Public Shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete an initial business combination or may result in our liquidation. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our Trust Account and our Warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, are required to comply with certain SEC and other legal requirements. It is possible that we will become subject to different or heightened rules or requirements promulgated by the SEC, and we may become subject to heightened or increased scrutiny by the SEC. On December 10, 2020, the SEC’s office of Investor Education and Advocacy issued an investor bulletin entitled *What you Need to Know About SPACs*. On December 22, 2020, the SEC’s Division of Corporate Finance issued CF Disclosure Guidance: Topic No. 11 regarding special purpose acquisition companies. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly.

Those laws and regulations and their interpretation and application may also change from time to time. In particular, it is possible that we may become subject to different or heightened rules or requirements, or face increased regulatory scrutiny, by the SEC. These changes could have a material adverse effect on our business, investments and results of operations, and we may not have launched our Company had we been subject to these changes in laws, regulations or increased regulatory scrutiny at the time of the Initial Public Offering. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination and results of operations.

The grant of registration rights to our initial stockholders may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A Common Stock.

Pursuant to an agreement entered into concurrently with the issuance and sale of the securities in the Initial Public Offering, our initial stockholders and their permitted transferees can demand that we register the shares of Class A Common Stock into which our founder shares are convertible, the Private Placement Warrants, the shares of Class A Common Stock issuable upon exercise of the Private Placement Warrants held, or to be held, by them, and holders of Warrants that may be issued upon conversion of working capital loans may demand that we register such Warrants or the Class A Common Stock issuable upon exercise of such Warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A Common Stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A Common Stock that is expected when the securities owned by our initial stockholders or holders of working capital loans or their respective permitted transferees are registered.

Any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their securities.

We will not, under the terms of our amended and restated certificate of incorporation, be permitted to effectuate our initial business combination with another blank check company or similar company with nominal operations. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our Units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their securities.

Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

We may seek business combination opportunities in industries or sectors which may or may not be outside of our management team's area of expertise.

We will consider an initial business combination outside of our management team's area of expertise if an initial business combination candidate is presented to us and we determine that such candidate offers an attractive business combination opportunity for our company or we are unable to identify a suitable candidate in our management team's area of expertise after having expended a reasonable amount of time and effort in an attempt to do so. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our securities will not ultimately prove to be less favorable to investors than a direct investment, if an opportunity were available, in an initial business combination candidate. In the event we elect to pursue a business combination outside of the areas of our management team's expertise, our management team's expertise may not be directly applicable to its evaluation or operation, and the information contained in this Form 10-K regarding the areas of our management team's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all of the significant risk factors. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our Trust Account and our Warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

We may seek business combination opportunities with a financially unstable business or an entity lacking an established record of revenue, cash flow or earnings, which could subject us to volatile revenues, cash flows or earnings or difficulty in retaining key personnel.

To the extent we complete our initial business combination with a financially unstable business or an entity lacking an established record of revenues or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include volatile revenues or earnings and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.

Unless we complete our initial business combination with an affiliated entity or our board cannot independently determine the fair market value of the target business or businesses, we are not required to obtain an opinion from an independent investment banking firm or an independent accounting firm that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy materials or tender offer documents, as applicable, related to our initial business combination.

We may issue additional common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A Common Stock upon the conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. Any such issuances would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation authorizes the issuance of up to 200,000,000 shares of Class A Common Stock, par value \$0.0001 per share, 20,000,000 shares of Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. As of today there are 155,000,000 and 8,750,000 authorized but unissued shares of Class A Common Stock and Class B common stock, respectively, available for issuance, which amount does not take into account the shares of Class A Common Stock reserved for issuance upon exercise of outstanding Warrants. There are no shares of preferred stock issued and outstanding. Shares of Class B common stock are convertible into shares of our Class A Common Stock initially at a one-for-one ratio but subject to adjustment as set forth herein, including in certain circumstances in which we issue Class A Common Stock or equity-linked securities related to our initial business combination. Shares of Class B common stock are also convertible at the option of the holder at any time.

We may issue a substantial number of additional shares of common or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A Common Stock to redeem the Warrants in certain circumstances as described in this Form 10-K or upon conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. However, our amended and restated certificate of incorporation provides, among other things, that prior to or in connection with our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the Trust Account or (ii) vote on any initial business combination. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with the approval of our stockholders. However, our officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding Public Shares. The issuance of additional shares of common or preferred stock:

- may significantly dilute the equity interest of our investors;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our Units, Class A Common Stock and/or Warrants.

Resources could be wasted in researching business combinations that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less than such amount in certain circumstances, on the liquidation of our Trust Account and our Warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys, consultants and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our Trust Account and our Warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our Sponsor, its members or officers, directors or existing holders, which may raise potential conflicts of interest.

In light of the involvement of our Sponsor, its members, and our officers and directors with other businesses, we may decide to acquire one or more businesses affiliated with or competitive with our Sponsor, any of its members, our officers or directors and their respective affiliates. Our directors also serve as officers and/or board members for other entities. Such entities and entities affiliated with our Sponsor and its members, may compete with us for business combination opportunities. Our officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning an initial business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for an initial business combination and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm or from an independent accounting firm, regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our Sponsor, officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Although we expect to benefit from PJT Partners LP's network of relationships and processes for sourcing and assessing potential acquisition targets, neither PJT Partners LP nor any of its affiliates has any legal or contractual obligation to provide such support with or to present to us any investment opportunities that might be suitable as our initial business combination.

Although we expect to benefit from PJT Partners LP network of relationships and processes for sourcing and assessing potential acquisition targets, neither PJT Partners LP nor any of its affiliates has any legal or contractual obligation to provide such support with or to present to us any investment opportunities that might be suitable as our initial business combination. We have no advisory or other arrangement in place with PJT Partners LP that would obligate it to undertake any such efforts on our behalf or that govern the manner in which PJT Partners LP will allocate investment opportunities. Even if PJT Partners LP refers an opportunity to us, no assurance can be given that such opportunity will result in an acquisition agreement or our initial business combination.

PJT Partners LP provides a wide range of advisory services to a substantial and diversified client base, including in relation to the purchase or sale of businesses which may be attractive to us as potential investments. In the course of providing such services, PJT Partners LP may advise clients that compete with us for acquisition opportunities or clients that may be suitable targets for our initial investment, and PJT Partners LP may have fiduciary, contractual or other obligations or duties to such third-party clients that limit or restrict its ability to assist us. These conflicts and other potential conflicts may result in PJT Partners LP taking commercial steps which may have an adverse effect on us, and the interests of PJT Partners LP or its clients may be, at times, adverse to ours.

Since our initial stockholders will lose their entire investment in us if our initial business combination is not completed (other than with respect to any Public Shares they may hold), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

On August 11, 2020, our Sponsor purchased an aggregate of 10,062,500 founder shares for an aggregate purchase price of \$25,000, resulting in an effective purchase price per founder share of approximately \$0.0025. On August 27, 2020, we effected a stock dividend of 1,437,500 shares with respect to our Class B common stock, resulting in our Sponsor holding an aggregate of 11,500,000 founder shares. On September 11, 2020, we effected a reverse stock split resulting in our Sponsor holding an aggregate of 10,062,500 founder shares. On October 1, 2020, we effected a stock dividend of 1,437,500 shares with respect to our Class B common stock, resulting in our initial stockholders holding an aggregate of 11,500,000 founder shares. On October 15, our Sponsor forfeited 250,000 founder shares as a result of the Underwriters' partial exercise of their over-allotment option. The founder shares will be worthless if we do not complete an initial business combination. Additionally, members of our management team indirectly own our securities, including founder shares, and accordingly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.

In addition, our Sponsor and an affiliate of PJT Partners LP purchased an aggregate of 11,000,000 Private Placement Warrants for a purchase price of \$11,000,000, or \$1.00 per Warrant, that will also be worthless if we do not complete our initial business combination. Each Private Placement Warrant entitles the holder thereof to purchase one share of our Class A Common Stock at a price of \$11.50 per share, subject to adjustment as provided herein.

The personal and financial interests of our Sponsor, its members, and our officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the deadline for completing our initial business combination nears.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete an initial business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date hereof to issue any notes or other debt securities, or to otherwise incur outstanding debt, we may choose to incur substantial debt to complete our initial business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the Trust Account. As such, no issuance of debt will affect the per-share amount available for redemption from the Trust Account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants which will cause us to be solely dependent on a single business which may have a limited number of services and limited operating activities. This lack of diversification may negatively impact our operating results and profitability.

Of the net proceeds from the Initial Public Offering and the sale of the Private Placement Warrants, \$276,000,000 is available to complete our initial business combination and pay related fees and expenses (which includes \$9,660,000 for the payment of deferred underwriting commissions).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. In addition, we intend to focus our search for an initial business combination in a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.
- This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. We do not, however, intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in an initial business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our initial business combination strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in an initial business combination with a company that is not as profitable as we suspected, if at all.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete an initial business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation does not provide a specified maximum redemption threshold, except that in no event will we redeem our Public Shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriting commissions (such that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our initial business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our Sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of Class A Common Stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, all shares of Class A Common Stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and other governing instruments. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instrument in a manner that will make it easier for us to complete our initial business combination that some of our stockholders or Warrant holders may not support.

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and governing instruments, including their warrant agreements. For example, blank check companies have amended the definition of business combination, increased redemption thresholds and extended the time to consummate an initial business combination. We cannot assure you that we will not seek to amend our charter or governing instruments, including to extend the time to consummate an initial business combination in order to effectuate our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our Trust Account), including an amendment to permit us to withdraw funds from the Trust Account such that the per share amount investors will receive upon any redemption or liquidation is substantially reduced or eliminated, may be amended with the approval of holders of 65% of our common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation and the trust agreement to facilitate the completion of an initial business combination that some of our stockholders may not support.

Our amended and restated certificate of incorporation provides that any of its provisions related to pre-initial business combination activity (including the requirement to deposit proceeds of the Initial Public Offering and the private placement of Warrants into the Trust Account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein and including to permit us to withdraw funds from the Trust Account such that the per share amount investors will receive upon any redemption or liquidation is substantially reduced or eliminated) may be amended if approved by holders of 65% of our common stock entitled to vote thereon, and corresponding provisions of the trust agreement governing the release of funds from our Trust Account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon, subject to applicable provisions of the DGCL or applicable stock exchange rules. We may not issue additional securities that can vote on amendments to our amended and restated certificate of incorporation. Our initial stockholders, who collectively beneficially own 20%, will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-initial business combination behavior more easily than some other blank check companies, and this may increase our ability to complete an initial business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our initial stockholders have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A Common Stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, divided by the number of then outstanding Public Shares. These agreements are contained in a letter agreement that we have entered into with our initial stockholders. Our other stockholders are not parties to, or third-party beneficiaries of, these agreements and will not have the ability to pursue remedies against our Sponsor, officers or directors for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

We intend to target businesses larger than we could acquire with the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants. As a result, we may be required to seek additional financing to complete such proposed initial business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Further, the amount of additional financing we may be required to obtain could increase as a result of future growth capital needs for any particular transaction, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of Public Shares from stockholders who elect redemption in connection with our initial business combination and/or the terms of negotiated transactions to purchase Public Shares in connection with our initial business combination. If we do not complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share plus any pro rata interest earned on the funds held in the Trust Account and not previously released to us to pay our franchise and income taxes on the liquidation of our Trust Account, and our Warrants will expire worthless. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business.

None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination. If we do not complete our initial business combination, our public stockholders may only receive approximately \$10.00 per share on the liquidation of our Trust Account, and our Warrants will expire worthless. Furthermore, under certain circumstances our public stockholders may receive less than \$10.00 per share upon the liquidation of the Trust Account.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on an initial business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We would include the same financial statement disclosure in connection with any tender offer documents. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such statements in accordance with federal proxy or tender offer rules and complete our initial business combination within the prescribed timeframe.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an initial business combination.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2021. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

If we effect our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to a variety of additional risks that may negatively impact our operations.

If we effect our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- higher costs and difficulties inherent in managing cross-border business operations and complying with different commercial and legal requirements of overseas markets;

- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- longer payment cycles and challenges in collecting accounts receivable;
- tax issues, including but not limited to tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- cultural and language differences;
- employment regulations;
- data privacy;
- changes in industry, regulatory or environmental standards within the jurisdictions where we operate;
- public health or safety concerns and governmental restrictions, including those caused by outbreaks of pandemic disease such as the COVID-19 pandemic;
- crime, strikes, riots, civil disturbances, terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States; and
- government appropriations of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer, which may adversely impact our results of operations and financial condition.

Subsequent to the completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining debt financing to partially finance the initial business combination. Accordingly, any stockholders who choose to remain stockholders following the initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the initial business combination constituted an actionable material misstatement or omission.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The loss of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our management may not be able to maintain control of a target business after our initial business combination.

We may structure an initial business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of Class A Common Stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may have a limited ability to assess the management of a prospective target business and, as a result, may affect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company, which could, in turn, negatively impact the value of our stockholders' investment in us.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Risks Relating to our Management Team

We are dependent upon our officers and directors and their departure could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. We do not have an employment agreement with, or key man insurance on the life of, any of our directors or officers. The unexpected loss of the services of one or more of our directors or officers could have a detrimental effect on us.

Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained.

Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we employ after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct.

These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements. In addition, the officers and directors of an initial business combination candidate may resign upon completion of our initial business combination. The departure of an initial business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an initial business combination candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an initial business combination candidate's management team will remain associated with the initial business combination candidate following our initial business combination, it is possible that members of the management of an initial business combination candidate will not wish to remain in place. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for an initial business combination and their other businesses. Although we have retained and may in the future retain consultants to perform certain services for the Company, we do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers and directors is engaged in other business endeavors for which he may be entitled to substantial compensation and our officers and directors are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors may also serve as officers or board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination.

Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our officers and directors are, and may in the future become, affiliated with entities (such as operating companies or investment vehicles) that are engaged in a similar business.

Our officers and directors also may become aware of business opportunities which may be appropriate for presentation to us and other entities to which they owe certain fiduciary or contractual duties. Any such opportunities may present additional conflicts of interest in pursuing an acquisition target, and our directors and officers may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation provides that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates (including our Sponsor and the members or our Sponsor) from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into an initial business combination with a target business that is affiliated with our Sponsor, any of its members, our directors or officers, or we may pursue an affiliated joint acquisition opportunity with any such persons. We do not have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

Risks Relating to Ownership of Our Securities

You will not have any rights or interests in funds from the Trust Account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your Public Shares or Warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the Trust Account only upon the earliest to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of Class A Common Stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any Public Shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity and (iii) the redemption of our Public Shares if we do not complete an initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period, subject to applicable law and as further described herein. In no other circumstances will a public stockholder have any right or interest of any kind in the Trust Account. Holders of Warrants will not have any right to the proceeds held in the Trust Account with respect to the Warrants. Accordingly, to liquidate your investment, you may be forced to sell your Public Shares or Warrants, potentially at a loss.

The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

Each of our Units, Class A Common Stock and Warrants are currently listed on the NYSE. Although we expect to continue meet the minimum listing standards set forth in the NYSE listing standards, we cannot assure you that our securities will continue to be listed on the NYSE in the future or prior to our initial business combination. In order to continue listing our securities on the NYSE prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. In general, we must maintain a minimum number of holders of our securities (generally 300 public stockholders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with the NYSE's initial listing requirements, which are more rigorous than the NYSE's continued listing requirements, in order to continue to maintain the listing of our securities on the NYSE. For instance, in order for our Class A Common Stock to be listed upon the consummation of our initial business combination, at such time, our stock price would generally be required to be at least \$4.00 per share, our global market capitalization would be required to be at least \$200,000,000, the aggregate market value of publicly-held shares would be required to be at least \$100,000,000 and we would be required to have at least 400 round lot holders. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If the NYSE delists any of our securities from trading on its exchange and we are not able to list such securities on another national securities exchange, we expect such securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A Common Stock is a "penny stock" which will require brokers trading in our Class A Common Stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because our Units, Class A Common Stock and Warrants are listed on the NYSE, our Units, Class A Common Stock and Warrants are covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on the NYSE, our securities would not be covered securities and we would be subject to regulation in each state in which we offer our securities, including in connection with our initial business combination.

Unlike many other similarly structured blank check companies, our initial stockholders will receive additional shares of Class A Common Stock if we issue shares to consummate an initial business combination.

The founder shares will automatically convert into Class A Common Stock at the time of our initial business combination, or earlier at the option of the holders, on a one-for-one basis, subject to adjustment as provided herein. In the case that additional shares of Class A Common Stock, or equity-linked securities convertible into or exercisable or exchangeable for Class A Common Stock, are issued or deemed issued in excess of the amounts offered in the Initial Public Offering and related to the closing of the initial business combination, the ratio at which founder shares shall convert into Class A Common Stock will be adjusted so that the number of Class A Common Stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of all outstanding shares of common stock upon completion of the Initial Public Offering, plus (ii) all shares of Class A Common Stock and equity-linked securities issued, or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the business combination, and any private placement-equivalent Warrants issued to our Sponsor or its affiliates upon conversion of loans made to us). This is different from most other similarly structured blank check companies in which the initial stockholder will only be issued an aggregate of 20% of the total number of shares to be outstanding prior to the initial business combination.

We may amend the terms of the Warrants in a manner that may be adverse to holders of Public Warrants with the approval by the holders of at least 50% of the then outstanding Public Warrants. As a result, the exercise price of your Warrants could be increased, the exercise period could be shortened and the number of shares of our Class A Common Stock purchasable upon exercise of a Warrant could be decreased, all without your approval.

Our Warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as Warrant agent, and us. The warrant agreement provides that the terms of the Warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding Public Warrants to make any change that adversely affects the interests of the registered holders of Public Warrants. Accordingly, we may amend the terms of the Public Warrants in a manner adverse to a holder if holders of at least 50% of the then outstanding Public Warrants approve of such amendment. Although our ability to amend the terms of the Public Warrants with the consent of at least 50% of the then outstanding Public Warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the Warrants, convert the Warrants into cash or stock, shorten the exercise period or decrease the number of shares of our Class A Common Stock purchasable upon exercise of a Warrant.

Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our Warrants, which could limit the ability of Warrant holders to obtain a favorable judicial forum for disputes with our company.

Our warrant agreement provides that, subject to applicable law, (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement, including under the Securities Act, will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. We will waive any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum.

Notwithstanding the foregoing, these provisions of the warrant agreement will not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal district courts of the United States of America are the sole and exclusive forum. Any person or entity purchasing or otherwise acquiring any interest in any of our Warrants shall be deemed to have notice of and to have consented to the forum provisions in our warrant agreement. If any action, the subject matter of which is within the scope of the forum provisions of our warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a “foreign action”) in the name of any holder of our Warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an “enforcement action”), and (y) having service of process made upon such Warrant holder in any such enforcement action by service upon such Warrant holder’s counsel in the foreign action as agent for such Warrant holder.

This choice-of-forum provision may limit a Warrant holder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with our company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

We may redeem your unexpired Warrants prior to their exercise at a time that is disadvantageous to you, thereby making your Warrants worthless.

We have the ability to redeem outstanding Warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per Warrant, provided that the last reported sales price of our Class A Common Stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and certain issuances of Class A Common Stock and equity-linked securities) for any 20 trading days within the 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption and provided certain other conditions are met. If and when the Warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding Warrants could force you (i) to exercise your Warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your Warrants at the then-current market price when you might otherwise wish to hold your Warrants or (iii) to accept the nominal redemption price which, at the time the outstanding Warrants are called for redemption, is likely to be substantially less than the market value of your Warrants. None of the Private Placement Warrants will be redeemable by us (except as described elsewhere in this Form 10-K) so long as they are held by our Sponsor or its permitted transferees.

In addition, we have the ability to redeem the outstanding Public Warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.10 per Warrant upon a minimum of 30 days' prior written notice of redemption, *provided* that the closing price of our Class A Common Stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and certain issuances of Class A Common Stock and equity-linked securities) for any 20 trading days within the 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption and *provided* that certain other conditions are met, including that holders will be able to exercise their Warrants prior to redemption for a number of shares of Class A Common Stock determined based on the redemption date and the fair market value of shares of our Class A Common Stock. The value received upon exercise of the Warrants (1) may be less than the value the holders would have received if they had exercised their Warrants at a later time where the underlying share price is higher and (2) where exercised on a cashless basis, may not compensate the holders for the value of the Warrants, including because the number of shares received is capped at 0.361 shares of Class A Common Stock per whole Warrant (subject to adjustment) irrespective of the remaining life of the Warrants.

None of the Private Placement Warrants will be redeemable by us, except as otherwise described in this Form 10-K, so long as they are held by our Sponsor or its permitted transferees.

Our Warrants and founder shares may have an adverse effect on the market price of our Class A Common Stock and make it more difficult to effectuate our initial business combination.

We issued Warrants to purchase 22,500,000 shares of Class A Common Stock, at \$11.50 per share, as part of the Units offered in the Initial Public Offering and we issued in a Private Placement Warrants to purchase an aggregate of 11,000,000 shares of Class A Common Stock, at \$11.50 per share. Our initial stockholders currently own an aggregate of 11,250,000 founder shares. The founder shares are convertible into shares of Class A Common Stock on a one-for-one basis, subject to adjustment as set forth herein. In addition, if our Sponsor makes any working capital loans, up to \$2,000,000 of such loans may be converted into Warrants, at the price of \$1.00 per Warrant at the option of the lender. Such Warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period.

To the extent we issue shares of Class A Common Stock to effectuate an initial business combination, the potential for the issuance of a substantial number of additional shares of Class A Common Stock upon exercise of these Warrants and conversion rights could make us a less attractive business combination vehicle to a target business. Any such issuance will increase the number of issued and outstanding shares of our Class A Common Stock and reduce the value of the shares of Class A Common Stock issued to complete the initial business combination. Therefore, our Warrants and founder shares may make it more difficult to effectuate an initial business combination or increase the cost of acquiring the target business.

The Private Placement Warrants are identical to the Warrants sold as part of the Units in the Initial Public Offering except that, so long as they are held by our Sponsor or its permitted transferees, (i) they will not be redeemable by us (except as described elsewhere in this Form 10-K), (ii) they (including the Class A Common Stock issuable upon exercise of these Warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by our Sponsor until 30 days after the completion of our initial business combination, (iii) they may be exercised by the holders on a cashless basis and (iv) they are entitled to registration rights.

Because each Unit contains one-half of one redeemable Warrant and only a whole Warrant may be exercised, the Units may be worth less than Units of other blank check companies.

Each Unit contains one-half of one redeemable Warrant. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade. Accordingly, unless you purchase at least two Units, you will not be able to receive or trade a whole Warrant. This is different from other offerings similar to ours whose Units include one share of common stock and one Warrant to purchase one whole share. We have established the components of the Units in this way in order to reduce the dilutive effect of the Warrants upon completion of an initial business combination since the Warrants will be exercisable in the aggregate for one third of the number of shares compared to Units that each contain a whole Warrant to purchase one share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this Unit structure may cause our Units to be worth less than if they included a Warrant to purchase one whole share.

An active trading market for our securities may not exist, which would adversely affect the liquidity and price of our securities.

The price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may not exist or be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A Common Stock and could entrench management.

Our amended and restated certificate of incorporation will contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred stock, and the fact that prior to the completion of our initial business combination only holders of our founder shares will have the right to vote on the election of directors, which may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Since only holders of our founder shares will have the right to vote on the election of directors, upon the listing of our shares on the NYSE, the NYSE may consider us to be a ‘controlled company’ within the meaning of the NYSE rules and, as a result, we may qualify for exemptions from certain corporate governance requirements.

Only holders of our founder shares currently have the right to vote on the election of directors. As a result, the NYSE may consider us to be a “controlled company” within the meaning of the NYSE corporate governance standards. Under the NYSE corporate governance standards, a company of which more than 50% of the voting power is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements, including the requirements that:

- we have a board that includes a majority of ‘independent directors,’ as defined under the rules of the NYSE;
- we have a compensation committee of our board that is comprised entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities; and
- We do not intend to utilize these exemptions and intend to comply with the corporate governance requirements of the NYSE, subject to applicable phase-in rules. However, if we determine in the future to utilize some or all of these exemptions, you will not have the same protections afforded to stockholders of companies that are subject to all of the NYSE corporate governance requirements.

Our directors may decide not to enforce the indemnification obligations of our Sponsor, resulting in a reduction in the amount of funds in the Trust Account available for distribution to our public stockholders.

In the event that the proceeds in the Trust Account are reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, and our Sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our Sponsor to enforce its indemnification obligations.

While we currently expect that our independent directors would take legal action on our behalf against our Sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the Trust Account available for distribution to our public stockholders may be reduced below \$10.00 per share.

We may not have sufficient funds to satisfy indemnification claims of our directors and officers.

We have agreed to indemnify our officers and directors to the fullest extent permitted by law. However, our officers and directors have agreed to waive (and any other persons who may become an officer or director prior to the initial business combination will also be required to waive) any right, title, interest or claim of any kind in or to any monies in the Trust Account and not to seek recourse against the Trust Account for any reason whatsoever (except to the extent they are entitled to funds from the Trust Account due to their ownership of Public Shares). Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the Trust Account or (ii) we consummate an initial business combination. Our obligation to indemnify our officers and directors may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

The securities in which we invest the proceeds held in the Trust Account could bear a negative rate of interest, which could reduce the interest income available for payment of taxes or reduce the value of the assets held in trust such that the per share redemption amount received by public stockholders may be less than \$10.00 per share.

The net proceeds of the Initial Public Offering and certain proceeds from the sale of the Private Placement Warrants, in the amount of \$450,000,000, are being held in an interest-bearing Trust Account. The proceeds held in the Trust Account may only be invested in direct U.S. government securities with a maturity of 185 days or less, or in certain money market funds which invest only in direct U.S. Treasury obligations. While short-term U.S. government treasury obligations currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Federal Reserve has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event of very low or negative yields, the amount of interest income (which we may withdraw to pay income taxes, if any) would be reduced. In the event that we are unable to complete our initial business combination, our public stockholders are entitled to receive their share of the proceeds held in the Trust Account, plus any interest income. If the balance of the Trust Account is reduced below \$450,000,000 as a result of negative interest rates, the amount of funds in the Trust Account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the Trust Account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and we and our board may be exposed to claims of punitive damages.

If, after we distribute the proceeds in the Trust Account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the Trust Account prior to addressing the claims of creditors.

If, before distributing the proceeds in the Trust Account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the Trust Account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the Trust Account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the Trust Account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we have not completed an initial business combination within 24 months from the closing of the Initial Public Offering, our public stockholders may be forced to wait beyond such 24 months before redemption from our Trust Account.

If we have not completed an initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period, the proceeds then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay taxes (less up to \$100,000 of the interest to pay dissolution expenses), will be used to fund the redemption of our Public Shares, as further described herein. Any redemption of public stockholders from the Trust Account will be effected automatically by function of our amended and restated certificate of incorporation prior to any voluntary winding up. If we are required to wind-up, liquidate the Trust Account and distribute such amount therein, pro rata, to our public stockholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the DGCL. In that case, investors may be forced to wait beyond 24 months from the closing of the Initial Public Offering or the expiration of any Extension Period before the redemption proceeds of our Trust Account become available to them, and they receive the return of their pro rata portion of the proceeds from our Trust Account. We have no obligation to return funds to investors prior to the date of our redemption of Public Shares or liquidation unless we complete our initial business combination prior thereto and only then in cases where investors have sought to redeem their Class A Common Stock. Only upon our redemption or any liquidation will public stockholders be entitled to distributions if we do not complete our initial business combination.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our Trust Account distributed to our public stockholders upon the redemption of our Public Shares in the event we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our Public Shares as soon as reasonably possible following the end of the 24th month after the closing of the Initial Public Offering or the expiration of any Extension Period in the event we do not complete our initial business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the ten years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our Trust Account distributed to our public stockholders upon the redemption of our Public Shares in the event we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

We may not hold an annual meeting of stockholders until after we consummate our initial business combination and you will not be entitled to any of the corporate protections provided by such a meeting.

We may not hold an annual meeting of stockholders until after we consummate our initial business combination (unless required by the NYSE) and thus may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting of stockholders be held for the purposes of electing directors in accordance with a company's bylaws unless such election is made by written consent in lieu of such a meeting. Therefore, if our stockholders want us to hold an annual meeting prior to our consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL. Until we hold an annual meeting of stockholders, public stockholders may not be afforded the opportunity to discuss company affairs with management. In addition, prior to our business combination (a) as holders of our Class A common stock, our public stockholders will not have the right to vote on the appointment of our directors and (b) holders of a majority of the outstanding shares of our Class B common stock may remove a member of our board of directors for any reason.

Holders of Class A Common Stock will not be entitled to vote on any election of directors we hold prior to our initial business combination and, upon consummation of our initial business combination, our initial stockholders will have certain rights to designate individuals for nomination for election as directors.

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the election of directors. Holders of our Public Shares will not be entitled to vote on the election of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. Accordingly, you may not have any say in the management of our company prior to the consummation of an initial business combination.

We are not registering the shares of Class A Common Stock issuable upon exercise of the Warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise Warrants, thus precluding such investor from being able to exercise its Warrants except on a cashless basis. If the issuance of the shares upon exercise of Warrants is not registered, qualified or exempt from registration or qualification, the holder of such Warrant will not be entitled to exercise such Warrant and such Warrant may have no value and expire worthless.

We are not registering the shares of Class A Common Stock issuable upon exercise of the Warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a registration statement for the registration under the Securities Act of the shares of Class A Common Stock issuable upon exercise of the Warrants and thereafter will use our commercially reasonable efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain the effectiveness of the registration statement, and a current prospectus relating to the Class A Common Stock issuable upon exercise of the Warrants, until the expiration of the Warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares of Class A Common Stock issuable upon exercise of the Warrants are not registered under the Securities Act, we will be required to permit holders to exercise their Warrants on a cashless basis, in which case the number of shares of our Class A Common Stock that you will receive upon cashless exercise will be based on a formula subject to a maximum number of shares equal to 0.361 shares of our Class A Common Stock per Warrant (subject to adjustment). However, no Warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their Warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from state registration is available. If that exemption, or another exemption, is not available, holders will not be able to exercise their Warrants on a cashless basis. Notwithstanding the above, if shares of our Class A Common Stock are at the time of any exercise of a Public Warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of Public Warrants who exercise their Warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In no event will we be required to net cash settle any Warrant, or issue securities or other compensation in exchange for the Warrants in the event that we are unable to register or qualify the shares underlying the Warrants under applicable state securities laws and there is no exemption available. If the issuance of the shares upon exercise of the Warrants is not so registered or qualified or exempt from registration or qualification, the holder of such Warrant will not be entitled to exercise such Warrant and such Warrant may have no value and expire worthless. In such event, holders who acquired their Warrants as part of a purchase of Units will have paid the full Unit purchase price solely for the shares of Class A Common Stock included in the Units. If and when the Warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

The Warrants may become exercisable and redeemable for a security other than the shares of Class A Common Stock, and you will not have any information regarding such other security at this time.

In certain situations, including if we are not the surviving entity in our initial business combination, the Warrants may become exercisable for a security other than the shares of Class A Common Stock. As a result, if the surviving company redeems your Warrants for securities pursuant to the warrant agreement, you may receive a security in a company of which you do not have information at this time. Pursuant to the warrant agreement, the surviving company will be required to use commercially reasonable efforts to register the issuance of the security underlying the Warrants within 15 business days of the closing of an initial business combination.

If you exercise your Public Warrants on a “cashless basis,” you will receive fewer shares of Class A Common Stock from such exercise than if you were to exercise such Warrants for cash.

There are circumstances in which the exercise of the Public Warrants may be required or permitted to be made on a cashless basis. First, if a registration statement covering the shares of Class A Common Stock issuable upon exercise of the Warrants is not effective by the 60th business day after the closing of our initial business combination, Warrant holders may, until such time as there is an effective registration statement, exercise Warrants on a cashless basis in accordance with Section 3(a)(9) of the Securities Act or another exemption. Second, if a registration statement covering the Class A Common Stock issuable upon exercise of the Warrants is not effective within a specified period following the consummation of our initial business combination, Warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise Warrants on a cashless basis pursuant to the exemption provided by Section 3(a)(9) of the Securities Act, provided that such exemption is available; if that exemption, or another exemption, is not available, holders will not be able to exercise their Warrants on a cashless basis. Third, if we call the Public Warrants for redemption, under certain circumstances, Warrant holders will be able to exercise their Warrants on a cashless basis. In the event of an exercise on a cashless basis, a holder would pay the Warrant exercise price by surrendering the Warrants for that number of shares of Class A Common Stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of shares of Class A Common Stock underlying the Warrants, multiplied by the excess of the “fair market value” of our Class A Common Stock (defined above) over the exercise price of the Warrants by (y) the fair market value and (B) 0.361 per whole Warrant, and the number of shares of our Class A Common Stock received by a holder upon exercise will be fewer than it would have been had such holder exercised the Warrant for cash.

For example, if the holder is exercising 875 Public Warrants at \$11.50 per share through a cashless exercise when the shares of our Class A Common Stock have a fair market value of \$17.50 per share when there is no effective registration statement, then upon the cashless exercise, the holder will receive 300 shares of our Class A Common Stock. The holder would have received 875 shares of our Class A Common Stock if the exercise price was paid in cash. This will have the effect of reducing the potential “upside” of the holder’s investment in our company because the Warrant holder will hold a smaller number of shares of our Class A Common Stock upon a cashless exercise of the Warrants they hold.

Our initial stockholders hold a substantial interest in us and will control the appointment of our board of directors until consummation of our initial business combination. As a result, they will appoint all of our directors prior to our initial business combination and may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Our initial stockholders own shares representing approximately 20% of our issued and outstanding shares of common stock. Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation and approval of major corporate transactions. If our initial stockholders purchase any additional shares of common stock in the market or in privately negotiated transactions, this would increase their control. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A Common Stock. In addition, prior to our initial business combination, our initial stockholders will have the right to appoint all of our directors and may remove members of the board of directors for any reason. Holders of our Public Shares will have no right to vote on the appointment of directors during such time. These provisions of our amended and restated certificate of incorporation may only be amended by a resolution passed by a majority of the founder shares. As a result, you will not have any influence over the appointment of directors prior to our initial business combination. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our “staggered” board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our initial business combination.

We are an emerging growth company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the aggregate worldwide market value of our Class A Common Stock held by non-affiliates equals or exceeds \$700.0 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder’s counsel, which may have the effect of discouraging lawsuits against our directors, officers, other employees or stockholders.

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder’s counsel except any action (A) as to which the Court of Chancery in the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, (C) for which the Court of Chancery does not have subject matter jurisdiction, or (D) any action created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation. Unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States shall be the exclusive forum for any action arising under the Securities Act. This choice of forum provision may limit a stockholder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Our amended and restated certificate of incorporation provides that the exclusive forum provision will be applicable to the fullest extent permitted by applicable law, subject to certain exceptions. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. In addition, our amended and restated certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States of America shall, to the fullest extent permitted by law, be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act or the rules and regulations promulgated thereunder. We note, however, that there is uncertainty as to whether a court would enforce this provision and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. Section 22 of the Securities Act creates concurrent jurisdiction for state and federal courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder.

General Risk Factors

We are a newly formed company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Past performance by members of our management team and our Sponsor may not be indicative of future performance of an investment in us.

Information regarding performance by, or businesses associated with, members of our management team and our Sponsor is presented for informational purposes only. Any past experience and performance, including related to acquisitions, of members of our management team and/or our Sponsor is not a guarantee either: (1) that we will be able to successfully identify a suitable candidate for our initial business combination; or (2) of any results with respect to any initial business combination we may consummate. You should not rely on the historical record and performance of members of our management team and/or our Sponsor as indicative of the future performance of an investment in us or the returns we will, or are likely to, generate going forward.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

We are subject to changing law and regulations regarding regulatory matters, corporate governance and public disclosure that have increased both our costs and the risk of non-compliance.

We are subject to rules and regulations by various governing bodies, including, for example, the SEC, which are charged with the protection of investors and the oversight of companies whose securities are publicly traded, and to new and evolving regulatory measures under applicable law. Our efforts to comply with new and changing laws and regulations have resulted in and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from seeking a business combination target.

Moreover, because these laws, regulations and standards are subject to varying interpretations, their application in practice may evolve over time as new guidance becomes available. This evolution may result in continuing uncertainty regarding compliance matters and additional costs necessitated by ongoing revisions to our disclosure and governance practices. If we fail to address and comply with these regulations and any subsequent changes, we may be subject to penalty and our business may be harmed.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

We currently maintain our executive offices at Golden Bear Plaza, 11760 US Highway 1, Suite W506, North Palm Beach, FL and our telephone number is (561) 402-0741. Our website address is www.sportsentcorp.com. We consider our current office space adequate for our current operations.

Item 3. Legal Proceedings

None.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuers Purchases of Equity Securities

Market Information

Our Units, Class A Common Stock and Warrants are traded on the NYSE under the symbols SEAH.U, SEAH and SEAH WS, respectively.

Holders

As of December 31, 2020, there was one holder of record of our Units, one holder of record of our Class A Common Stock, three holders of record of our Class B Common Stock and three holders of record of our Warrants.

Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Recent Sales of Unregistered Securities; Use of Proceeds from Registered Offering

On October 6, 2020 the Company consummated the Initial Public Offering of 40,000,000 Units. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$400,000,000. The Company granted the Underwriters a 45-day option to purchase up to 6,000,000 additional Units to cover over-allotments, if any. On October 14, 2020, the Underwriters partially exercised the over-allotment option and on October 15, 2020, purchased an additional 5,000,000 Units, generating gross proceeds of \$50,000,000.

Simultaneously with the closing of the IPO, the Company completed the private sale of an aggregate of 10,000,000 Private Placement Warrants to Sports Entertainment Acquisition Holdings LLC, a Delaware limited liability company, and PJT Partners Holdings LP at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$10,000,000. In connection with the Underwriters' partial exercise of their over-allotment option, our Sponsor and PJT simultaneously purchased an additional 944,444 and 55,556 Private Placement Warrants, respectively, generating gross proceeds to the Company of \$1,000,000.

There has been no material change in the planned use of proceeds from such use as described in the Company's final prospectus dated October 1, 2020.

Item 7. Management's discussion and analysis of financial condition and results of operations

The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with our audited financial statements and the notes related thereto which are included in "Item 8. Financial Statements and Supplementary Data" of this Annual Report on Form 10-K. Certain information contained in the discussion and analysis set forth below includes forward-looking statements. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including those set forth under "Special Note Regarding Forward-Looking Statements," "Item 1A. Risk Factors" and elsewhere in this Annual Report on Form 10-K.

Overview

We are a blank check company formed under the laws of the State of Delaware on July 30, 2020 for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or other similar business combination with one or more businesses (the "Business Combination"). We intend to effectuate our Business Combination using cash from the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants (as defined below), our capital stock, debt or a combination of cash, stock and debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from July 30, 2020 (inception) through December 31, 2020 were organizational activities, execution of the Initial Public Offering, described below, and identifying a target for a Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination at the earliest. We generate non-operating income in the form of interest income on marketable securities held since the Initial Public Offering. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the period from July 30, 2020 (inception) through December 31, 2020, we had a net loss of \$136,110, which consists of operating costs of \$203,809, offset by interest earned on marketable securities held in the Trust Account of \$67,699.

Liquidity and Capital Resources

On October 6, 2020, we consummated the Initial Public Offering of 40,000,000 Units at a price of \$10.00 per Unit, generating gross proceeds of \$400,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of 10,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant in a private placement to our Sponsor and an affiliate of PJT Partners LP, generating gross proceeds of \$10,000,000.

On October 15, 2020, the Company issued an additional 5,000,000 Units issued for total gross proceeds of \$50,000,000 in connection with the underwriters' partial exercise of their over-allotment option. Simultaneously with the partial closing of the over-allotment option, we also consummated the sale of an additional 1,000,000 Private Placement Warrants at \$1.00 per Private Placement Warrant, generating total proceeds of \$1,000,000. A total of \$450,000,000 was placed in the Trust Account. We incurred \$25,318,504 in transaction costs, including \$9,000,000 of underwriting fees, \$15,750,000 of deferred underwriting fees and \$568,504 of other offering costs.

For the period from July 30, 2020 (inception) through December 31, 2020, cash used in operating activities was \$385,100. Net loss of \$136,110 was affected by interest earned on marketable securities held in the Trust Account of \$67,699 and changes in operating assets and liabilities, which used \$181,291 of cash from operating activities.

As of December 31, 2020, we had cash and marketable securities held in the Trust Account of \$450,067,699. We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account, to complete our Business Combination. We may withdraw interest to pay franchise and income taxes. During the period ended December 31, 2020, we did not withdraw any interest earned on the Trust Account. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

As of December 31, 2020, we had cash of \$1,087,876 outside of the Trust Account. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we may repay such loaned amounts out of the proceeds of the Trust Account released to us. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts, but no proceeds from our Trust Account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant, at the option of the lender. The warrants would be identical to the Private Placement Warrants. There is no such loan outstanding as of December 31, 2020.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our Business Combination. If we are unable to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of December 31, 2020. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual Obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay the Sponsor a monthly fee of \$10,000 for office space, secretarial and administrative support services provided to the Company. We began incurring these fees on October 1, 2020 and will continue to incur these fees monthly until the earlier of the completion of a Business Combination and the Company's liquidation.

The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$15,750,000 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

Class A Common Stock Subject to Possible Redemption

We account for our Class A common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Shares of common stock subject to mandatory redemption are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A common stock (including common stock that feature redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. Our Class A common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, shares of Class A common stock subject to possible redemption are presented as temporary equity, outside of the stockholders’ equity section of our balance sheet.

Net Loss per Common Share

We apply the two-class method in calculating earnings per share. Net income per common share, basic and diluted for Class A redeemable common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable taxes, by the weighted average number of shares of Class A redeemable common stock outstanding for the period. Net income per common share, basic and diluted for and Class B non-redeemable common stock is calculated by dividing net income less income attributable to Class A redeemable common stock, by the weighted average number of shares of Class B non-redeemable common stock outstanding for the period presented.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

Item 7A. Quantitative and qualitative disclosures about market risk

As of December 31, 2020, we were not subject to any market or interest rate risk. Following the consummation of our Initial Public Offering, the net proceeds of our Initial Public Offering, including amounts in the Trust Account, have been invested in U.S. government treasury obligations with a maturity of 185 days or less or in certain money market funds that invest solely in U.S. treasuries. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Item 8. Financial Statements and Supplementary Data.

This information appears following Item 15 of this Report and is included herein by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this Report, is recorded, processed, summarized, and reported within the time period specified in the SEC’s rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our current chief executive officer and chief financial officer (our “Certifying Officers”), the effectiveness of our disclosure controls and procedures as of December 31, 2020, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of December 31, 2020, our disclosure controls and procedures were effective.

We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Management’s Report on Internal Controls Over Financial Reporting

This Annual Report on Form 10-K does not include a report of management’s assessment regarding internal control over financial reporting or an attestation report of our independent registered public accounting firm due to a transition period established by rules of the SEC for newly public companies.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers, and Corporate Governance

Officers and Directors

Name	Age	Title
Eric Grubman	62	Chairman of the Board of Directors and Chief Financial Officer
John Collins	59	Chief Executive Officer
Natara Holloway	44	Director
Timothy Goodell	63	Director

Our directors and executive officers are as follows:

Eric Grubman has been the Chairman of our Board of Directors and our Chief Financial Officer since July 2020. Prior to this role, Mr. Grubman served as Chairman of the Board of On Location Experiences, a premium experiential hospitality business from April 2018 to January 2020. Previously, from May 2004 until July 2018, Mr. Grubman served in various roles with the National Football League (NFL), most recently as the Executive Vice President of Business Operations, where he was involved in numerous significant transactions, including the sales of NFL teams and construction of stadiums and was heavily involved with managing relationships with NFL partners. Prior to the NFL, Mr. Grubman served as Co-President at Constellation Energy Group, an energy company that provides electric power, natural gas, and energy management services, from September 1999 to April 2002. Prior to his role with Constellation, Mr. Grubman served in various roles at Goldman Sachs, including as Partner and co-head of the Energy Group. Mr. Grubman earned a bachelor’s degree in economics from the United States Naval Academy and an M.B.A. from Harvard Business School. Mr. Grubman was selected to serve on our Board due to his years of executive experience working with professional sports leagues, as well as his investing experience.

John Collins has been our Chief Executive Officer since July 2020. Mr. Collins served as the Chief Executive Officer of On Location Experiences from 2015 until January 2020, where he oversaw an expansion from \$35 million to \$650 million in annual revenues. Prior to his role at On Location Experiences, Mr. Collins served as Chief Operating Officer of the National Hockey League (NHL) from 2008 until 2015, after previously serving as Senior Executive Vice President of Business and Media from 2006 until 2008. Prior to his roles with the NHL, Mr. Collins was President and Chief Executive Officer of the Cleveland Browns NFL team from 2004 until 2006. Earlier in his career, Mr. Collins served in numerous roles at the NFL, including as Senior Vice President of Marketing, Sales and Programming. Mr. Collins earned a bachelor's degree from the C.W. Post Campus at Long Island University.

Natara Holloway has served on our Board since October 2020. Ms. Holloway has served in various positions at the NFL since 2004, initially serving as a Manager in the Internal Audit department, and currently serving as the Vice President of Business Operations and Strategy for Football Operations, a position that she has held since April 2019. In this role, she oversees football technology and innovation, administration and football pipeline development. Previously, Ms. Holloway served as the NFL's Vice President of Brand, Marketing and Retail Development and as Vice President of Corporate Development - New Business. Prior to joining the NFL, Ms. Holloway served in the Controller's Group at Exxon Mobil from June 1998 to February 2004. Ms. Holloway earned a bachelor's degree in Accounting from the University of Houston. Ms. Holloway was selected to serve on our Board due to her years of experience working with the NFL as well as her years of accounting experience.

Timothy Goodell has served on our Board since October 2020. Mr. Goodell has worked at Hess Corporation, a global energy company, since January 2009, where he now serves as the Executive Vice President, General Counsel, Corporate Secretary and Chief Compliance Officer. Mr. Goodell also serves as General Counsel and Secretary at Hess Midstream GP LLC, the general partner of Hess Midstream LP, both subsidiaries of Hess Corporation. Prior to joining Hess, Mr. Goodell spent 24 years with the New York City-based law firm White & Case, where he served as global co-head of the Mergers & Acquisitions Practice Group and a member of the Partnership Committee. From 1979 to 1981, Mr. Goodell worked at the Washington, D.C. based business consultancy, Strategic Planning Associates. Mr. Goodell earned a bachelor's degree from Davidson College and a J.D. from the University of Virginia School of Law. Mr. Goodell was selected to serve on our Board due to his years of experience in advising on general corporate and corporate governance matters.

Number and Terms of Officers and Directors.

Our board of directors consists of three members. In accordance with the NYSE corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the NYSE. Prior to consummation of our initial business combination, holders of our Class B common stock will have the right to elect all of our directors and remove members of our board of directors for any reason. Holders of our public shares will not have the right to vote on the election of directors during such time. Approval of our initial business combination will require the affirmative vote of a majority of our board directors. Subject to any other special rights applicable to the stockholders, prior to our initial business combination, any vacancies on our board of directors may be filled by the affirmative vote of a majority of the directors present and voting at the meeting of our board of directors that includes any directors representing our sponsor then on our board of directors, or by holders of a majority of the outstanding shares of our Class B common stock.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors. Our board of directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws provide that our officers may consist of a Chairman of the Board, Chief Executive Officer, Chief Financial Officer, President, Vice Presidents, Secretary, Treasurer, Assistant Secretaries and such other offices as may be determined by the board of directors.

Director Independence

The rules of the NYSE require that a majority of our board of directors be independent within one year of our initial public offering. An "independent director" is defined generally as a person that, in the opinion of the company's board of directors, has no material relationship with the listed company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the company). Our board of directors has determined that each of Ms. Holloway and Mr. Goodell is an independent director under applicable SEC and NYSE rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Committees of the Board of Directors

Our board of directors has three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee, each of which is composed solely of independent directors. Subject to phase-in rules, the rules of the NYSE and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of the NYSE require that the compensation committee and the nominating and corporate governance committee of a listed company be comprised solely of independent directors. Each committee operates under a charter that was approved by our board of directors and has the composition and responsibilities described below. The charter of each committee is available on our website.

Audit Committee

The members of our audit committee are Natara Holloway and Timothy Goodell. Ms. Holloway serves as chairman of the audit committee. Under the NYSE listing standards and applicable SEC rules, we are required to have at least three members of the audit committee, all of whom must be independent, within one year of listing on the NYSE. We intend to appoint a third independent director within one year of listing.

Each member of the audit committee is financially literate and our board of directors has determined that Ms. Holloway qualifies as an “audit committee financial expert” as defined in applicable SEC rules and has accounting or related financial management expertise.

We have adopted an audit committee charter, which details the principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) the independent registered public accounting firm’s qualifications and independence and (4) the performance of our internal audit function and the independent registered public accounting firm;
- the appointment, compensation, retention, replacement, and oversight of the work of the independent registered public accounting firm engaged by us;
- pre-approving all audit and permitted non-audit services to be provided by the independent registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;
- setting clear hiring policies for employees or former employees of the independent registered public accounting firm, including but not limited to, as required by applicable laws and regulations;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (i) the independent registered public accounting firm’s internal quality-control procedures, (ii) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues and (iii) all relationships between the independent registered public accounting firm and us to assess the independent registered public accounting firm’s independence;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent registered public accounting firm, including reviewing our specific disclosures under “Management’s Discussion and Analysis of Financial Condition and Results of Operations”;
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

We have established a compensation committee of the board of directors. The members of our compensation committee are Natara Holloway and Timothy Goodell. Mr. Goodell serves as chairman of the compensation committee.

We have adopted a compensation committee charter, which details the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, if any is paid by us, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;
- reviewing and making recommendations on an annual basis to our board of directors with respect to (or approving, if such authority is so delegated by our board of directors) the compensation, if any is paid by us, and any incentive-compensation and equity-based plans that are subject to board approval of our other officers;
- reviewing on an annual basis our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- if required, producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, until the earlier of the consummation of our initial business combination or our liquidation, other than in connection with potentially providing financing or other investments in connection with our initial business combination, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our Sponsor, officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate the consummation of an initial business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by the NYSE and the SEC.

Nominating and Corporate Governance Committee

We have established a nominating and corporate governance committee of the board of directors. The members of our nominating and corporate governance committee are Natara Holloway and Timothy Goodell. Mr. Goodell serves as chair of the nominating and corporate governance committee.

We have adopted a nominating and corporate governance committee charter, which details the purpose and responsibilities of the nominating and corporate governance committee, including:

- identifying, screening and reviewing individuals qualified to serve as directors, consistent with criteria approved by the board, and recommending to the board of directors candidates for nomination for election at the annual meeting of stockholders or to fill vacancies on the board of directors;
- developing and recommending to the board of directors and overseeing implementation of our corporate governance guidelines;
- coordinating and overseeing the annual self-evaluation of the board of directors, its committees, individual directors and management in the governance of the company; and

- reviewing on a regular basis our overall corporate governance and recommending improvements as and when necessary.

The charter also provides that the nominating and corporate governance committee may, in its sole discretion, retain or obtain the advice of, and terminate, any search firm to be used to identify director candidates, and will be directly responsible for approving the search firm's fees and other retention terms.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our board of directors.

Compensation Committee Interlocks and Insider Participation

None of our officers currently serves, or in the past year has served, as a member of the compensation committee of any entity that has one or more officers serving on its board of directors.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics applicable to our directors, officers and employees, a copy of which is available on our website. In addition, a copy of the Code of Business Conduct and Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Business Conduct and Ethics in a Current Report on Form 8-K.

Item 11. Executive Compensation

None of our officers or directors have received any cash compensation for services rendered to us. Our Sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our Sponsor, officers, directors or our or any of their affiliates.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting, management or other compensation from the combined company. All compensation will be fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed business combination. It is unlikely the amount of such compensation will be known at the time, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our officers after the completion of our initial business combination will be determined by a compensation committee constituted solely by independent directors.

We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment. The existence or terms of any such employment or consulting arrangements may influence our management's motivation in identifying or selecting a target business, and we do not believe that the ability of our management to remain with us after the consummation of our initial business combination should be a determining factor in our decision to proceed with any potential business combination.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of March 31, 2021 held by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our officers and directors that beneficially owns shares of our common stock; and
- all our officers, directors and director nominees as a group.

- As of March 31, 2021, 45,000,000 shares of Class A common stock, \$0.0001 par value, and 11,250,000 shares of Class B common stock, \$0.0001 par value, were issued and outstanding.

The following table is based on 56,250,000 shares of common stock outstanding at March 31, 2021, of which 45,000,000 were shares of Class A common stock and 11,250,000 were shares of Class B common stock. Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. The following table does not reflect record of beneficial ownership of the Private Placement Warrants as those Warrants are not exercisable within 60 days of March 31, 2021.

Name of Beneficial Owner	Class A Common Stock		Class B Common Stock ⁽³⁾		Approximate Percentage of Outstanding Common Stock
	Number of Shares Beneficially Owned	Approximate Percentage of Class	Number of Shares Beneficially Owned	Approximate Percentage of Class	
Sports Entertainment Acquisition Holdings LLC ⁽¹⁾⁽²⁾	-	-	11,200,000	99.6%	19.9%
Eric Grubman ⁽¹⁾	-	-	-	-	-
John Collins ⁽¹⁾	-	-	-	-	-
Natara Holloway ⁽¹⁾	-	-	25,000	*	*
Timothy Goodell ⁽¹⁾	-	-	25,000	*	*
Millennium Management LLC ⁽⁴⁾	3,452,697	7.7%	-	-	6.1%
All officers and directors as a group (4 individuals)	-	-	50,000	*	*

* Less than one percent.

⁽¹⁾ Unless otherwise noted, the business address of each of the above entities or individuals is Golden Bear Plaza, 11760 US Highway 1, Suite W506, North Palm Beach, FL 33408.

⁽²⁾ Our sponsor is the record holder of such shares. Eric Grubman, John Collins and Chris Shumway are the three managers of our sponsor's board of managers. Any action by our sponsor with respect to our company or the founder shares, including voting and dispositive decisions, requires a majority vote of the managers of the board of managers. Under the so-called "rule of three," because voting and dispositive decisions are made by a majority of our sponsor's managers, none of the managers of our sponsor is deemed to be a beneficial owner of our sponsor's securities, even those in which such manager holds a pecuniary interest. Accordingly, none of our officers is deemed to have or share beneficial ownership of the founder shares held by our sponsor.

⁽³⁾ Interests shown consist solely of founder shares. Such shares will automatically convert into shares of Class A Common Stock at the time of our initial business combination on a one-for-one basis, subject to adjustment.

⁽⁴⁾ Based on a Schedule 13G/A filed by Integrated Core Strategies (US) LLC, Riverview Group LLC, ICS Opportunities, Ltd., Millennium International Management LP, Millennium Management LLC, Millennium Group Management LLC and Israel A. Englander with the SEC on January 27, 2021. Integrated Core Strategies (US) LLC has shared voting power and shared dispositive power over 1,289,543 shares. Riverview Group LLC has share voting power and shared dispositive power over 1,250,000 shares. Each of ICS Opportunities, Ltd. and Millennium International Management LP has shared voting power and shared dispositive power over 913,154 shares. Each of Millennium Management LLC, Millennium Group Management LLC and Israel A. Englander has shared voting power and shared dispositive power over 3,452,697 shares. The principal business address for each of Integrated Core Strategies (US) LLC, Riverview Group LLC, ICS Opportunities, Ltd., Millennium International Management LP, Millennium Management LLC, Millennium Group Management LLC and Israel A. Englander is c/o Millennium Management LLC, 666 Fifth Avenue, New York, NY 10103.

Item 13. Certain Relationships and Related Transactions, and Director Independence

On August 11, 2020, our Sponsor purchased an aggregate of 10,062,500 founder shares for an aggregate purchase price of \$25,000, resulting in an effective purchase price per founder share of approximately \$0.0025. On August 27, 2020, we effected a stock dividend of 1,437,500 shares with respect to our Class B common stock, resulting in our Sponsor holding an aggregate of 11,500,000 founder shares. On September 11, 2020, we effected a reverse stock split resulting in our Sponsor holding an aggregate of 10,062,500 founder shares. On October 1, 2020, we effected a stock dividend of 1,437,500 shares with respect to our Class B common stock, resulting in our initial stockholders holding an aggregate of 11,500,000 founder shares. On October 15, our Sponsor forfeited 250,000 founder shares as a result of the Underwriters' partial exercise of their over-allotment option.

In addition, our Sponsor and an affiliate of PJT Partners LP purchased an aggregate of 11,000,000 Private Placement Warrants for a purchase price of \$11,000,000, or \$1.00 per Warrant, that will also be worthless if we do not complete our initial business combination. Each Private Placement Warrant entitles the holder thereof to purchase one share of our Class A Common Stock at a price of \$11.50 per share, subject to adjustment as provided in this Form 10-K. The Private Placement Warrants (including the Class A Common Stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

We entered into an Administrative Services Agreement pursuant to which we will also pay our sponsor a total of \$10,000 per month for office space, administrative and support services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

If any of our officers or directors becomes aware of an initial business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

No compensation of any kind, including any finder's fee, reimbursement, consulting fee or monies in respect of any payment of a loan, will be paid by us to officers or directors prior to, or in connection with, any services rendered in order to effectuate the consummation of an initial business combination (regardless of the type of transaction that it is). We do not have a policy that prohibits our Sponsor, officers or directors, or any of their respective affiliates, from negotiating for the reimbursement of out-of-pocket expenses by a target business. Our audit committee will review on a quarterly basis all payments that were made to our Sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into Warrants at a price of \$1.00 per Warrant at the option of the lender. The Warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our Sponsor or an affiliate of our Sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our Trust Account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We entered into a registration and stockholder rights agreement with respect to the registration for resale under the Securities Act of the Private Placement Warrants, the Warrants issuable upon conversion of working capital loans (if any) and the shares of Class A Common Stock issuable upon exercise of the foregoing and upon conversion of the founder shares. Any holder of at least 20% of the outstanding registrable securities owned by these holders is entitled to make up to two demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear certain expenses incurred in connection with the filing of any such registration statements.

Related Party Transactions Policy

We have adopted a Code of Business Conduct and Ethics requiring us to avoid, wherever possible, all conflicts of interests, except under guidelines or resolutions approved by our board of directors (or the appropriate committee of our board) or as disclosed in our public filings with the SEC. Under our Code of Business Conduct and Ethics, conflict of interest situations will include any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) involving the company.

In addition, our audit committee, pursuant to a written charter that we adopted prior to the consummation of the Initial Public Offering, is responsible for reviewing and approving related party transactions to the extent that we enter into such transactions. An affirmative vote of a majority of the members of the audit committee present at a meeting at which a quorum is present will be required in order to approve a related party transaction. A majority of the members of the entire audit committee will constitute a quorum. Without a meeting, the unanimous written consent of all of the members of the audit committee will be required to approve a related party transaction. We also require each of our directors and officers to complete a directors’ and officers’ questionnaire that elicits information about related party transactions.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our Sponsor, officers or directors unless we, or a committee of independent directors, have obtained an opinion from an independent investment banking firm or an independent accounting firm that our initial business combination is fair to our company from a financial point of view. No finder’s fees, reimbursements, consulting fee, monies in respect of any payment of a loan or other compensation will be paid by us to our Sponsor, officers or directors, or any affiliate of our Sponsor or officers, for services rendered to us prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is). However, the following payments will be made to our Sponsor, officers or directors, or our or their affiliates, none of which will be made from the proceeds of the Initial Public Offering held in the Trust Account prior to the completion of our initial business combination:

- Repayment of a loan of up to an aggregate of \$300,000 made to us by our Sponsor to cover offering related and organizational expenses;
- Payment to our sponsor of a total of \$10,000 per month, for up to 24 months, for office space, administrative and support services;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and
- Repayment of loans which may be made by our Sponsor or an affiliate of our Sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$2,000,000 of such loans may be convertible into Warrants, at a price of \$1.00 per Warrant at the option of the lender.

Our audit committee will review on a quarterly basis all payments that were made to our Sponsor, officers or directors, or our or their affiliates.

Item 14. Principal Accountant Fees and Services

The firm of WithumSmith+Brown, PC, or Withum, acts as our independent registered public accounting firm. The following is a summary of fees paid to Withum for services rendered.

Audit Fees. For the period from July 30, 2020 (inception) through December 31, 2020, fees for our independent registered public accounting firm were approximately \$60,000 for the services Withum performed in connection with our Initial Public Offering and the audit of our December 31, 2020 financial statements included in this Annual Report on Form 10-K.

Audit-Related Fees. For the period from July 30, 2020 (inception) through December 31, 2020, our independent registered public accounting firm did not render assurance and related services related to the performance of the audit or review of financial statements.

Tax Fees. For the period from July 30, 2020 (inception) through December 31, 2020, our independent registered public accounting firm did not render services to us for tax compliance, tax advice and tax planning.

All Other Fees. For the period from July 30, 2020 (inception) through December 31, 2020, there were no fees billed for products and services provided by our independent registered public accounting firm other than those set forth above.

Pre-Approval Policy

Our audit committee was formed upon the consummation of our Initial Public Offering. As a result, the audit committee did not pre-approve all of the foregoing services, although any services rendered prior to the formation of our audit committee were approved by our board of directors. Since the formation of our audit committee, and on a going-forward basis, the audit committee has and will pre-approve all auditing services and permitted non-audit services to be performed for us by our auditors, including the fees and terms thereof (subject to the de minimis exceptions for non-audit services described in the Exchange Act which are approved by the audit committee prior to the completion of the audit).

Balance Sheet	F-3
Statement of Operations	F-4
Statement of Changes in Stockholders' Equity	F-5
Statement of Cash Flows	F-6
Notes to Financial Statements	F-7 to F-16

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of
Sports Entertainment Acquisition Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Sports Entertainment Acquisition Corp. (the "Company") as of December 31, 2020 and the related statements of operations, changes in stockholders' equity and cash flows for the period from July 30, 2020 (inception) through December 31, 2020, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020, and the results of its operations and its cash flows for the period from July 30, 2020 (inception) through December 31, 2020, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company's auditor since 2020.

**SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Sports Entertainment Acquisition Corp. (the “Company”) was incorporated in Delaware on July 30, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2020, the Company had not commenced any operations. All activity for the period from July 30, 2020 (inception) through December 31, 2020 related to the Company’s formation and the initial public offering (“Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company generates non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company’s Initial Public Offering was declared effective on October 1, 2020. On October 6, 2020 the Company consummated the Initial Public Offering of 40,000,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$400,000,000 which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of an aggregate of 10,000,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant in private placements to Sports Entertainment Acquisition Holdings LLC (the “Sponsor”) and an affiliate of PJT Partners LP, generating gross proceeds of \$10,000,000, which is described in Note 4.

On October 15, 2020, the Company issued an additional 5,000,000 Units issued for total gross proceeds of \$50,000,000, in connection with the underwriters’ partial exercise of their over-allotment option. Simultaneously with the partial closing of their over-allotment option, the Company also consummated the sale of an additional 1,000,000 Private Placement Warrants at \$1.00 per Private Placement Warrant, generating total proceeds of \$1,000,000.

Transaction costs amounted to \$25,318,504, consisting of \$9,000,000 in cash underwriting fees, \$15,750,000 of deferred underwriting fees and \$568,504 of other offering costs.

Following the closing of the Initial Public Offering on October 6, 2020, and the partial exercise of the over-allotment option on October 15, 2020, an amount of \$450,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”) located in the United States. The funds in the Trust Account will be invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

Substantially all of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants are intended to be applied generally toward consummating a Business Combination, and the Company’s management has broad discretion to identify targets for such a potential Business Combination and over the specific application of the funds held in the Trust Account if and when such funds are properly released from the Trust Account. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the Trust Account). The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act.

The Company will provide the holders of the outstanding Public Shares (the “Public Stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share, plus any pro rata interest then in the Trust Account, net of taxes payable). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

The Company will only proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 following any related redemptions and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by applicable law or stock exchange listing requirements and the Company does not decide to hold a stockholder vote for business or other reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the "Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by applicable law or stock exchange listing requirements, or the Company decides to obtain stockholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Sponsor has agreed to vote its Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each Public Stockholder may elect to redeem their Public Shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

Notwithstanding the foregoing, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Certificate of Incorporation provides that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares, without the prior consent of the Company.

The Sponsor has agreed (a) to waive its redemption rights with respect to the Founder Shares and Public Shares held by it in connection with the completion of a Business Combination and (b) not to propose an amendment to the Certificate of Incorporation (i) to modify the substance or timing of the Company's obligation to allow redemptions in connection with a Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to stockholders' rights or pre-business combination activity, unless the Company provides the Public Stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

If the Company has not completed a Business Combination by October 6, 2022, or such later date as a result of a stockholder vote to amend the Amended and Restated Certificate of Incorporation (the "Combination Period"), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to pay taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The Sponsor has agreed to waive its liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor acquires Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per Public Share due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except for the Company's independent registered public accounting firm), prospective target businesses and other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

**SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are presented in U.S. dollars and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the accounting and disclosure rules and regulations of the Securities and Exchange Commission (the "SEC").

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Liquidity and Capital Resources

As of December 31, 2020, the Company had approximately \$1.1 million in its operating bank account, and working capital of approximately \$1.3 million.

The Company's liquidity needs to date have been satisfied through a contribution of \$25,000 from the Sponsor to cover for certain expenses in exchange for the issuance of the Founder Shares, a loan of approximately \$125,000 from the Sponsor (see Note 5) which was repaid subsequent to the closing of the Initial Public offering, and the proceeds from the consummation of the Private Placement not held in the Trust Account. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans (see Note 5). As of December 31, 2020, there were no amounts outstanding under any Working Capital Loan.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of December 31, 2020.

Cash and Marketable Securities Held in Trust Account

The Company classifies its U.S. Treasury and equivalent securities as held-to-maturity in accordance with ASC Topic 320 "Investments - Debt and Equity Securities." Held-to-maturity securities are those securities which the Company has the ability and intent to hold until maturity. Held-to-maturity treasury securities are recorded at amortized cost on the accompanying balance sheet and adjusted for the amortization or accretion of premiums or discounts.

Class A Common Stock Subject to Possible Redemption

Company accounts for its Class A common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Shares of Class A common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that feature redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's Class A common stock features certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, 43,057,038 shares of Class A common stock subject to possible redemption are presented as temporary equity, outside of the stockholders' equity section of the Company's balance sheet.

**SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

Offering Costs

Offering costs consist of legal, accounting and other expenses incurred through the balance sheet date that are directly related to the Initial Public Offering. Offering costs amounting to \$25,318,504 were charged to stockholders' equity upon the completion of the Initial Public Offering and the partial exercise of the underwriters' over-allotment.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements' carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Net Loss per Common Share

Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. The Company has not considered the effect of warrants sold in the Initial Public Offering and private placement to purchase 33,500,000 shares of Class A common stock in the calculation of diluted income per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company's statement of operations includes a presentation of income (loss) per share for common shares subject to possible redemption in a manner similar to the two-class method of income (loss) per share. Net income per common share, basic and diluted, for Class A common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable franchise and income taxes by the weighted average number of Class A common stock outstanding since original issuance. Net loss per share, basic and diluted, for Class B common stock is calculated by dividing the net loss, adjusted for income attributable to Class A common stock, net of applicable franchise and income taxes, by the weighted average number of Class B common stock outstanding for the period. Class B common stock includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

The following table reflects the calculation of basic and diluted net loss per common share (in dollars, except per share amounts):

	For the Period From July 30, 2020 (inception) Through December 31, 2020
Class A Common Stock	
Numerator: Earnings allocable to Class A Common Stock	
Interest Income	\$ 67,699
Income Tax and Franchise Tax	(67,699)
Net Earnings	<u>\$ —</u>
Denominator: Weighted Average Class A Common Stock	
Class A Common Stock, Basic and Diluted	45,000,000
Earnings/Basic and Diluted Class A Common Stock	<u>\$ 0.00</u>
Class B Common Stock	
Numerator: Net Loss minus Net Earnings	
Net Loss	\$ (136,110)
Net Earnings	—
Net Loss	<u>\$ (136,110)</u>
Denominator: Weighted Average Class B Common Stock	
Class B Common Stock, Basic and Diluted	11,250,000
Loss/Basic and Diluted Class B Common Stock	<u>\$ (0.01)</u>

Note: As of December 31, 2020, basic and diluted shares are the same as there are no non-redeemable securities that are dilutive to the Company's stockholders.

**SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Corporation coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC 820, "Fair Value Measurement," approximates the carrying amounts represented in the accompanying balance sheet, primarily due to their short-term nature.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

NOTE 3. INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering and the partial exercise by the underwriters of their over-allotment option, the Company sold 45,000,000 Units at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock and one-half of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7).

NOTE 4. PRIVATE PLACEMENT

Simultaneously, on October 6, 2020, with the closing of the Initial Public Offering and the underwriters' partial exercise of their over-allotment option, the Sponsor and an affiliate of PJT Partners LP purchased an aggregate of 10,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$10,000,000. Simultaneously with the closing of the partial exercise by the underwriters of their over-allotment option, the Sponsor and an affiliate of PJT Partners LP purchased an aggregate of 1,000,000 additional Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$1,000,000. Each Private Placement Warrant is exercisable to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7). The proceeds from the sale of the Private Placement Warrants were added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

In August 2020, the Sponsor purchased 10,062,500 of the Company's Class B common stock (the "Founder Shares") for an aggregate purchase price of \$25,000. On August 27, 2020, the Company effected a stock dividend with respect to its Class B common stock of 1,437,500 Founder Shares, resulting in 11,500,000 Class B shares issued and outstanding. On September 11, 2020, the Company effected a reverse stock split of 1,437,500 Founder Shares, resulting in the initial stockholders holding 10,062,500 Founder Shares. In September 2020, the Sponsor transferred an aggregate of 25,000 Founder Shares to each of the Company's Directors. On October 1, 2020, the Company effected a stock dividend of 1,437,500 shares with respect to the Founder Shares, resulting in an aggregate of 11,500,000 Founder Shares issued and outstanding. All share and per-share amounts have been retroactively restated to reflect the stock transactions. The Founder Shares included an aggregate of up to 1,500,000 shares subject to forfeiture to the extent that the underwriters' over-allotment was not exercised in full or in part, so that the number of Founder Shares would equal, on an as-converted basis, approximately 20% of the Company's issued and outstanding ordinary shares after the Initial Public Offering. As a result of the underwriters' election to partially exercise their over-allotment option on October 15, 2020, a total of 1,250,000 Founder Shares are no longer subject to forfeiture and 250,000 Founder Shares were forfeited, resulting in an aggregate of 11,250,000 Founder Shares issued and outstanding.

**SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

The Sponsor has agreed, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier to occur of: (A) one year after the completion of a Business Combination and (B) subsequent to a Business Combination, (x) if the last reported sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the Public Stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Note — Related Party

On August 11, 2020, the Sponsor issued an unsecured promissory note to the Company (the “Promissory Note”), pursuant to which the Company could borrow up to an aggregate principal amount of \$300,000. The Promissory Note was non-interest bearing and payable on the earlier of (i) March 31, 2021 and (ii) the consummation of the Initial Public Offering. The outstanding balance under the Promissory Note of \$125,000 was repaid subsequent to the closing of the Initial Public Offering.

Administrative Services Agreement

The Company entered into an agreement, commencing on October 1, 2020, to pay the Sponsor up to \$10,000 per month for office space, secretarial and administrative support services. Upon completion of a Business Combination or its liquidation, the Company will cease paying these monthly fees. For period from July 30, 2020 (inception) through December 31, 2020, the Company incurred \$30,000 in fees for these services, of which \$10,000 is included in accrued expenses in the accompanying balance sheet.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company’s officers and directors may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). Such Working Capital Loans would be evidenced by promissory notes. The notes may be repaid upon completion of a Business Combination, without interest, or, at the lender’s discretion, up to \$2,000,000 of the notes may be converted upon completion of a Business Combination into warrants at a price of \$1.00 per warrant. Such warrants would be identical to the Private Placement Warrants. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. As of December 31, 2020, there were no amounts outstanding under the Working Capital Loans.

NOTE 6. COMMITMENTS AND CONTINGENCIES

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Registration Rights

Pursuant to a registration rights agreement entered into on October 6, 2020, the holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any shares of common stock issuable upon the exercise of the Private Placement Warrants or warrants issued upon conversion of the Working Capital Loans and upon conversion of the Founder Shares) will be entitled to registration rights requiring the Company to register such securities for resale (in the case of the Founder Shares, only after conversion to shares of Class A common stock). The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. However, the registration rights agreement provides that the Company will not be required to effect or permit any registration or cause any registration statement to become effective until the securities covered thereby are released from their lock-up restrictions. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Underwriting Agreement

The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$15,750,000 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

NOTE 7. STOCKHOLDERS' EQUITY

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At December 31, 2020, there were no shares of preferred stock issued or outstanding.

Class A Common Stock — The Company is authorized to issue 200,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. At December 31, 2020, there were 1,942,962 shares of Class A common stock issued and outstanding, excluding 43,057,038 shares of Class A common stock subject to possible redemption.

Class B Common Stock — The Company is authorized to issue 20,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. At December 31, 2020, there were 11,250,000 shares of Class B common stock issued and outstanding.

Only holders of the Class B common stock will have the right to vote on the election of directors prior to the Business Combination. Holders of Class A common stock and holders of Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders except as otherwise required by law.

The shares of Class B common stock will automatically convert into Class A common stock at the time of a Business Combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in the Initial Public Offering and related to the closing of a Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the then-outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of Initial Public Offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with a Business Combination (net of the number of shares of Class A common stock redeemed in connection with a Business Combination), excluding any shares or equity-linked securities issued or issuable to any seller in a Business Combination.

Warrants — As of December 31, 2020, there were 22,500,000 Public Warrants outstanding. Public Warrants may only be exercised for a whole number of shares. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Initial Public Offering. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of residence of the exercising holder, or an exemption from registration is available.

The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing of a Business Combination, the Company will use its commercially reasonable efforts to file, and within 60 business days following a Business Combination to have declared effective, a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. Notwithstanding the above, if the Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Redemptions of warrants when the price of Class A common stock equals or exceeds \$18.00 — Once the warrants become exercisable, the Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption, or the 30-day redemption period, to each warrant holder; and
- if, and only if, the reported last sale price of the Company's Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of warrants when the price per share of Class common stock equals or exceeds \$10.00 — Commencing ninety days after the warrants become exercisable, the Company may redeem the outstanding Public Warrants:

- in whole and not in part;
- at a price of \$0.10 per warrant provided that holders will be able to exercise their warrants prior to redemption and receive that number of shares of Class A common stock determined based on the redemption date and the "fair market value" of the Company's Class A common stock;
- upon a minimum of 30 days' prior written notice of redemption;
- if, and only if, the last reported sale price of the Company's Class A common stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders;
- if, and only if, there is an effective registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating thereto is available throughout the 30-day period after the written notice of redemption is given.

If the Company calls the Public Warrants for redemption, as described above, holders of Public Warrants may exercise their Warrants on a cashless basis (but not a cash basis), as described in the warrant agreement. The exercise price and number of common stock issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a stock dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

As of December 31, 2020, there were 11,000,000 Private Placement Warrants outstanding. The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or saleable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable, except as described above, so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

NOTE 8. INCOME TAX

The Company's net deferred tax assets are as follows:

	December 31, 2020
Deferred tax asset	
Net operating loss carryforward	\$ 3,581
Organizational costs/Startup expenses	25,004
Total deferred tax asset	28,585
Valuation allowance	(28,585)
Deferred tax asset, net of allowance	\$ —

The income tax provision consists of the following:

	December 31, 2020
Federal	
Current	\$ —
Deferred	(28,585)
State	
Current	—
Deferred	—
Change in valuation allowance	28,585
Income tax provision	\$ —

As of December 31, 2020, the Company had approximately \$17,000 of U.S. federal net operating loss carryovers available to offset future taxable income. The Company has federal net operating loss carryforwards of approximately \$17,000 which can be carried forward indefinitely.

In assessing the realization of the deferred tax assets, management considers whether it is more likely than not that some portion of all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. After consideration of all of the information available, management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance. For the period from July 30, 2020 (inception) through December 31, 2020, the change in the valuation allowance was \$28,585.

A reconciliation of the federal income tax rate to the Company's effective tax rate at December 31, 2020 is as follows:

	December 31, 2020
Statutory federal income tax rate	21.0%
State taxes, net of federal tax benefit	0.0%
Change in valuation allowance	(21.0)%
Income tax provision	0.0%

The Company files income tax returns in the U.S. federal jurisdiction in various state and local jurisdictions and is subject to examination by the various taxing authorities.

NOTE 9. FAIR VALUE MEASUREMENTS

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

SPORTS ENTERTAINMENT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.

Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

At December 31, 2020, assets held in the Trust Account were comprised of \$93,912 in cash and \$449,973,787 in U.S. Treasury securities. During the period ended December 31, 2020, the Company did not withdraw any interest income from the Trust Account.

The following table presents information about the Company's assets that are measured at fair value on a recurring basis at December 31, 2020 and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value. The gross holding gains and fair value of held-to-maturity securities at December 31, 2020 are as follows:

Held-To-Maturity	Level	Amortized Cost	Gross Holding Gain	Fair Value
U.S. Treasury Securities (Matured on 2/4/2021)	<u>1</u>	<u>\$ 449,973,787</u>	<u>\$ 3,713</u>	<u>\$ 449,977,500</u>

Transfers to/from Levels 1, 2 and 3 are recognized at the end of the reporting period. There were no transfers between levels for the period from July 30, 2020 (inception) through December 31, 2020.

NOTE 10. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

DESCRIPTION OF SECURITIES

The following description of the securities of Sports Entertainment Acquisition Corp. (the "company," "we" or "us") is a summary and does not purport to be complete. It is subject to and qualified in its entirety by reference to the Company's amended and restated certificate of incorporation, bylaws and the Company's warrant agreement with Continental Stock Transfer & Trust company, as Warrant agent (the "Warrant Agreement"), each of which is incorporated by reference as an exhibit to the Annual Report on Form 10-K of which this Exhibit 4.5 is a part. We encourage you to read such documents for additional information.

Pursuant to our amended and restated certificate of incorporation, our authorized capital stock consists of 200,000,000 shares of Class A common stock, \$0.0001 par value (the "Class A Common Stock"), 20,000,000 shares of Class B common stock (the "Class B Common Stock"), \$0.0001 par value, and 1,000,000 shares of undesignated preferred stock, \$0.0001 par value.

Units

Each Unit consists of one share of Class A Common Stock and one-half of one redeemable Warrant. Each whole Warrant entitles the holder thereof to purchase one share of our Class A Common Stock at a price of \$11.50 per share, subject to adjustment. Pursuant to the Warrant Agreement, a Warrant holder may exercise its Warrants only for a whole number of shares of Class A Common Stock. This means that only a whole Warrant may be exercised at any given time by a Warrant holder. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade.

Additionally, the Units will automatically separate into their component parts and will not be traded after completed of our initial business combination.

Common Stock

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Other than as described below, holders of the Class A Common Stock and holders of the Class B Common Stock vote together as a single class on all matters submitted to a vote of our stockholders, including any vote in connection with our initial business combination, except as required by law. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Each of our directors will serve for a term of two years. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors. Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor. Prior to our initial business combination, only holders of our founder shares will have the right to vote on the election of directors. Holders of our Public Shares are not entitled to vote on the election of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

Because our amended and restated certificate of incorporation authorizes the issuance of up to only 200,000,000 shares of Class A Common Stock, if we were to enter into an initial business combination, we may (depending on the terms of such an initial business combination) be required to increase the number of shares of Class A Common Stock which we are authorized to issue at the same time as our stockholder vote on the initial business combination to the extent we seek stockholder approval in connection with our initial business combination.

In accordance with the NYSE corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the NYSE. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws, unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We will provide our public stockholders with the opportunity to redeem all or a portion of their Public Shares upon (i) the completion of our initial business combination or (ii) a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity. Such redemptions, if any, will be made at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account as of two business days prior to the event triggering the right to redeem, including interest earned on the funds held in the Trust Account and not previously released to us to pay our franchise and income tax obligations, divided by the number of then outstanding Public Shares, subject to the limitations described herein. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriter. Our initial stockholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any Public Shares held by them in connection with the completion of our initial business combination, or a stockholder vote to approve an amendment to our amended and restated certificate of incorporation, as described above. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of Public Shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation will require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting.

However, the participation of our Sponsor, officers, directors, advisors or their affiliates in privately-negotiated transactions, if any, could result in the approval of our initial business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our initial stockholders, may make it more likely that we will consummate our initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares of common stock sold in the Initial Public Offering, which we refer to as the Excess Shares. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our stockholders' inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete the initial business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their stock in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our initial business combination, pursuant to the letter agreement, our initial stockholders have agreed to vote their founder shares and any Public Shares purchased during or after the Initial Public Offering (including in open market and privately negotiated transactions) in favor of our initial business combination. Additionally, each public stockholder may elect to redeem its Public Shares irrespective of whether they vote for or against the proposed transaction (subject to the limitation described in the preceding paragraph).

Pursuant to our amended and restated certificate of incorporation, if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to us to pay our franchise and income tax obligations (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our initial stockholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the Trust Account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of the Initial Public Offering or any extended time that we have to consummate a business combination beyond 24 months as a result of a stockholder vote to amend our amended and restated certificate of incorporation. However, our initial stockholders are entitled to liquidating distributions from the Trust Account with respect to any Public Shares they have acquired after our Initial Public Offering if we fail to complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after an initial business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our stockholders with the opportunity to redeem their Public Shares for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are identical to the shares of Class A Common Stock except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our initial stockholders have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to any founder shares and any Public Shares held by them in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to their founder shares and Public Shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (x) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period or (y) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity and (C) to waive their rights to liquidating distributions from the Trust Account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of the Initial Public Offering or during any Extension Period, although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they hold if we fail to complete our initial business combination within such time period, (iii) the founder shares are shares of our Class B Common Stock that will automatically convert into shares of our Class A Common Stock at the time of our initial business combination, or at any time prior thereto at the option of the holder, on a one-for-one basis, subject to adjustment as described herein, and (iv) are entitled to registration rights. If we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed pursuant to the letter agreement to vote any founder shares held by them and any Public Shares purchased during or after the Initial Public Offering (including in open market and privately negotiated transactions) in favor of our initial business combination.

The shares of Class B Common Stock will automatically convert into shares of Class A Common Stock at the time of our initial business combination on a one-for-one basis (subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like), and subject to further adjustment as provided herein. In the case that additional shares of Class A Common Stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this Form 10-K and related to the closing of the initial business combination, the ratio at which shares of Class B Common Stock shall convert into shares of Class A Common Stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B Common Stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A Common Stock issuable upon conversion of all shares of Class B Common Stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of all shares of common stock outstanding upon completion of the Initial Public Offering, plus (ii) all shares of Class A Common Stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares of Class A Common Stock or equity-linked securities issued, or to be issued, to any seller in the initial business combination, and any private placement-equivalent Warrants issued to our Sponsor or its affiliates upon conversion of loans made to us). We cannot determine at this time whether a majority of the holders of our Class B Common Stock at the time of any future issuance would agree to waive such adjustment to the conversion ratio. They may waive such adjustment due to (but not limited to) the following: (i) closing conditions which are part of the agreement for our initial business combination; (ii) negotiation with Class A stockholders on structuring an initial business combination; or (iii) negotiation with parties providing financing which would trigger the anti-dilution provisions of the Class B Common Stock. If such adjustment is not waived, the issuance would not reduce the percentage ownership of holders of our Class B Common Stock, but would reduce the percentage ownership of holders of our Class A Common Stock. If such adjustment is waived, the issuance would reduce the percentage ownership of holders of both classes of our common stock. Holders of founder shares may also elect to convert their shares of Class B Common Stock into an equal number of shares of Class A Common Stock, subject to adjustment as provided above, at any time. Securities could be "deemed issued" for purposes of the conversion rate adjustment if such shares are issuable upon the conversion or exercise of convertible securities, Warrants or similar securities.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our Sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of our Class A Common Stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the election of directors. Holders of our Public Shares will not be entitled to vote on the election of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. These provisions of our amended and restated certificate of incorporation may only be amended by a resolution passed by a majority of our Class B Common Stock. With respect to any other matter submitted to a vote of our stockholders, including any vote in connection with our initial business combination, except as required by law, holders of our founder shares and holders of our Public Shares will vote together as a single class, with each share entitling the holder to one vote.

Redeemable Warrants

Public Stockholders' Warrants

Each whole Warrant entitles the registered holder to purchase one share of our Class A Common Stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of the Initial Public Offering or 30 days after the completion of our initial business combination. Pursuant to the Warrant Agreement, a Warrant holder may exercise its Warrants only for a whole number of shares of Class A Common Stock. This means that only a whole Warrant may be exercised at any given time by a Warrant holder. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade. The Warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We are not obligated to deliver any shares of Class A Common Stock pursuant to the exercise of a Warrant and will have no obligation to settle such Warrant exercise unless a registration statement under the Securities Act of 1933, as amended, (the "Securities Act") with respect to the shares of Class A Common Stock underlying the Warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No Warrant will be exercisable and we will not be obligated to issue shares of Class A Common Stock upon exercise of a Warrant unless Class A Common Stock issuable upon such Warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the Warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a Warrant, the holder of such Warrant will not be entitled to exercise such Warrant and such Warrant may have no value and expire worthless. In no event will we be required to net cash settle any Warrant. In the event that a registration statement is not effective for the exercised Warrants, the purchaser of a Unit containing such Warrant will have paid the full purchase price for the Unit solely for the share of Class A Common Stock underlying such Unit.

We are not registering the shares of Class A Common Stock issuable upon exercise of the Warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a registration statement covering the shares of Class A Common Stock issuable upon exercise of the Warrants. We will use our commercially reasonable efforts to cause such registration statement to become effective within 60 business days after the closing of our initial business combination and to maintain a current prospectus relating to those shares of Class A Common Stock until the Warrants expire or are redeemed, as specified in the Warrant Agreement; provided that if shares of our Class A Common Stock are at the time of any exercise of a Warrant not listed on a national securities exchange and, as such, do not satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of Public Warrants who exercise their Warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. If a registration statement covering the shares of Class A Common Stock issuable upon exercise of the Warrants is not effective by the 60th business day after the closing of our initial business combination, Warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise Warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. In such event, each holder would pay the exercise price by surrendering the Warrants for that number of shares of Class A Common Stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of shares of Class A Common Stock underlying the Warrants, multiplied by the excess of the "fair market value" of our Class A Common Stock over the exercise price of the Warrants by (y) the fair market value and (B) 0.361 per whole Warrant. The "fair market value" as used in this paragraph shall mean the average of the last reported sale prices of the Class A Common Stock for the ten trading days ending on the third trading day prior to the date on which the notice of exercise is received by the Warrant agent. If that exemption, or another exemption, is not available, holders will not be able to exercise their Warrants on a cashless basis.

Redemption of Warrants when the price per share of Class A Common Stock equals or exceeds \$18.00. Once the Warrants become exercisable, we may redeem the outstanding Warrants (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
 - at a price of \$0.01 per Warrant;
 - upon a minimum of 30 days' prior written notice of redemption to each Warrant holder; and
-

- if, and only if, the last reported sale price of the Class A Common Stock for any 20 trading days within a 30-trading day period ending three trading days before we send the notice of redemption to the Warrant holders (which we refer to as the “Reference Value”) equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a Warrant as described under the heading “-Redeemable Warrants-Public Stockholders’ Warrants-Anti-Dilution Adjustments”).

We will not redeem the Warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A Common Stock issuable upon exercise of the Warrants is then effective and a current prospectus relating to those Class A Common Stock is available throughout the 30-day redemption period. If and when the Warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the Warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the Warrants, each Warrant holder will be entitled to exercise his, her or its Warrant prior to the scheduled redemption date. Any such exercise would not be done on a “cashless” basis and would require the exercising Warrant holder to pay the exercise price for each Warrant being exercised. However, the price of the Class A Common Stock may fall below the \$18.00 redemption trigger price (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a Warrant as described under the heading “-Warrants-Public Stockholders’ Warrants-Anti-Dilution Adjustments”) as well as the \$11.50 (for whole shares) Warrant exercise price after the redemption notice is issued.

Redemption of Warrants when the price per share of Class A Common Stock equals or exceeds \$10.00. Once the Warrants become exercisable, we may redeem the outstanding Warrants:

- in whole and not in part;
- at \$0.10 per Warrant upon a minimum of 30 days’ prior written notice of redemption, *provided* that holders will be able to exercise their Warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table below, based on the redemption date and the “fair market value” of our Class A Common Stock (as defined below in the immediately following paragraph) except as otherwise described below;
- if, and only if, the Reference Value (as defined above under the heading “-Redeemable Warrants-Public Stockholders’ Warrants-Redemption of Warrants when the price per share of Class A Common Stock equals or exceeds \$18.00”) equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a Warrant as described under the heading “-Redeemable Warrants-Public Stockholders’ Warrants-Anti-Dilution Adjustments”); and
- if the Reference Value is less than \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a Warrant as described under the heading “-Redeemable Warrants-Public Stockholders’ Warrants-Anti-Dilution Adjustments”), the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding Public Warrants, as described above.

Beginning on the date the notice of redemption is given until the Warrants are redeemed or exercised, holders who elect to exercise their Warrants may do so on a cashless basis. The numbers in the table below represent the number of shares of Class A Common Stock that a Warrant holder will receive upon such cashless exercise in connection with a redemption by us pursuant to this redemption feature, based on the “fair market value” of our Class A Common Stock on the corresponding redemption date (assuming holders elect to exercise their Warrants and such Warrants are not redeemed for \$0.10 per Warrant), determined for these purposes based on the volume-weighted average price of our Class A Common Stock as reported during the ten trading days immediately following the date on which the notice of redemption is sent to the holders of Warrants, and the number of months that the corresponding redemption date precedes the expiration date of the Warrants, each as set forth in the table below. We will provide our Warrant holders with the final fair market value no later than one business day after the ten-trading day period described above ends.

Pursuant to the Warrant Agreement, references above to Class A Common Stock shall include a security other than Class A Common Stock into which the Class A Common Stock have been converted or exchanged for in the event we are not the surviving company in our initial business combination. The numbers in the table below will not be adjusted when determining the number of Class A Common Stock to be issued upon exercise of the Warrants if we are not the surviving entity following our initial business combination.

The share prices set forth in the column headings of the table below will be adjusted as of any date on which the number of shares issuable upon exercise of a Warrant or the exercise price of a Warrant is adjusted as set forth under the heading “-Anti-Dilution Adjustments” below. If the number of shares issuable upon exercise of a Warrant is adjusted, the adjusted share prices in the column headings will equal the share prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the exercise price of the Warrant after such adjustment and the denominator of which is the price of the Warrant immediately prior to such adjustment. In such an event, the number of shares in the table below shall be adjusted by multiplying such share amounts by a fraction, the numerator of which is the number of shares deliverable upon exercise of a Warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a Warrant as so adjusted. If the exercise price of a Warrant is adjusted, (a) in the case of an adjustment pursuant to the fifth paragraph under the heading “-Anti-Dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price multiplied by a fraction, the numerator of which is the higher of the Market Value and the Newly Issued Price as set forth under the heading “-Anti-Dilution Adjustments” and the denominator of which is \$10.00 and (b) in the case of an adjustment pursuant to the second paragraph under the heading “- Anti-Dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price less the decrease in the exercise price of a Warrant pursuant to such exercise price adjustment.

Redemption Date (period to expiration of Warrants)	Fair Market Value of Class A Common Stock								
	<10.00	11.00	12.00	13.00	14.00	15.00	16.00	17.00	>18.00

0 months	-	-	0.042	0.115	0.179	0.233	0.281	0.323	0.361

The exact fair market value and redemption date may not be set forth in the table above, in which case, if the fair market value is between two values in the table or the redemption date is between two redemption dates in the table, the number of shares of Class A Common Stock to be issued for each Warrant exercised will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower fair market values and the earlier and later redemption dates, as applicable, based on a 365 or 366-day year, as applicable. For example, if the volume weighted average price of our Class A Common Stock as reported during the ten trading days immediately following the date on which the notice of redemption is sent to the holders of Warrants is \$11.00 per share, and at such time there are 57 months until the expiration of the Warrants, holders may choose to, in connection with this redemption feature, exercise their Warrants for 0.277 shares of Class A Common Stock for each whole Warrant. For an example where the exact fair market value and redemption date are not as set forth in the table above, if the volume weighted average price of our Class A Common Stock as reported during the ten trading days immediately following the date on which the notice of redemption is sent to the holders of Warrants is \$13.50 per share, and at such time there are 38 months until the expiration of the Warrants, holders may choose to, in connection with this redemption feature, exercise their Warrants for 0.298 shares of Class A Common Stock for each whole Warrant. In no event will the Warrants be exercisable on a cashless basis in connection with this redemption feature for more than 0.361 shares of Class A Common Stock per whole Warrant (subject to adjustment). Finally, as reflected in the table above, if the Warrants are out of the money and about to expire, they cannot be exercised on a cashless basis in connection with a redemption by us pursuant to this redemption feature, since they will not be exercisable for any Class A Common Stock.

This redemption feature differs from the typical Warrant redemption features used in some other blank check offerings, which typically only provide for a redemption of Warrants for cash (other than the Private Placement Warrants) when the trading price for the Class A Common Stock exceeds \$18.00 per share for a specified period of time. This redemption feature is structured to allow for all of the outstanding Warrants to be redeemed when the Class A Common Stock are trading at or above \$10.00 per share, which may be at a time when the trading price of our Class A Common Stock is below the exercise price of the Warrants. We have established this redemption feature to provide us with the flexibility to redeem the Warrants without the Warrants having to reach the \$18.00 per share threshold set forth above under “- Redemption of Warrants when the price per share of Class A Common Stock equals or exceeds \$18.00.” Holders choosing to exercise their Warrants in connection with a redemption pursuant to this feature will, in effect, receive a number of shares for their Warrants based on an option pricing model with a fixed volatility input as of the effective date of the Company’s registration statement covering the Initial Public Offering. This redemption right provides us with an additional mechanism by which to redeem all of the outstanding Warrants, and therefore have certainty as to our capital structure as the Warrants would no longer be outstanding and would have been exercised or redeemed. We will be required to pay the applicable redemption price to Warrant holders if we choose to exercise this redemption right and it will allow us to quickly proceed with a redemption of the Warrants if we determine it is in our best interest to do so. As such, we would redeem the Warrants in this manner when we believe it is in our best interest to update our capital structure to remove the Warrants and pay the redemption price to the Warrant holders.

As stated above, we can redeem the Warrants when the shares of Class A Common Stock are trading at a price starting at \$10.00, which is below the exercise price of \$11.50, because it will provide certainty with respect to our capital structure and cash position while providing Warrant holders with the opportunity to exercise their Warrants on a cashless basis for the applicable number of shares. If we choose to redeem the Warrants when the shares of Class A Common Stock are trading at a price below the exercise price of the Warrants, this could result in the Warrant holders receiving fewer shares of Class A Common Stock than they would have received if they had chosen to wait to exercise their Warrants for shares of Class A Common Stock if and when such shares of Class A Common Stock were trading at a price higher than the exercise price of \$11.50.

No fractional shares of Class A Common Stock will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of shares of Class A Common Stock to be issued to the holder. If, at the time of redemption, the Warrants are exercisable for a security other than Class A Common Stock pursuant to the Warrant Agreement (for instance, if we are not the surviving company in our initial business combination), the Warrants may be exercised for such security. At such time as the Warrants become exercisable for a security other than Class A Common Stock, the Company (or surviving company) will use its commercially reasonable efforts to register under the Securities Act the security issuable upon the exercise of the Warrants.

Redemption procedures. A holder of a Warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such Warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates or any person subject to aggregation with such person for the purposes of the “beneficial ownership” test under Section 13 of the Exchange Act, or any “group” (within the meaning of Section 13 of the Exchange Act) of which such person is or may be deemed to be a part), to the Warrant agent’s actual knowledge, would beneficially own in excess of 4.9% or 9.8% (or such other amount as a holder may specify) of the shares of Class A Common Stock outstanding immediately after giving effect to such exercise.

Anti-dilution adjustments. If the number of outstanding shares of Class A Common Stock is increased by a stock dividend payable in shares of Class A Common Stock, or by a split-up of shares of Class A Common Stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Class A Common Stock issuable on exercise of each Warrant will be increased in proportion to such increase in the outstanding shares of Class A Common Stock. A rights offering to holders of Class A Common Stock entitling holders to purchase shares of Class A Common Stock at a price less than the historical fair market value (as defined below) will be deemed a stock dividend of a number of shares of Class A Common Stock equal to the product of (i) the number of shares of Class A Common Stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A Common Stock) and (ii) one minus the quotient of (x) the price per share of Class A Common Stock paid in such rights offering divided by (y) the historical fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A Common Stock, in determining the price payable for Class A Common Stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon conversion or exercise and (ii) "historical fair market value" means the volume weighted average price of Class A Common Stock as reported during the ten trading day period ending on the trading day prior to the first date on which the shares of Class A Common Stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the Warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A Common Stock on account of such shares of Class A Common Stock (or other shares of our capital stock into which the Warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends (initially defined as up to \$0.50 per share in a 365 day period), (c) to satisfy the redemption rights of the holders of Class A Common Stock in connection with the completion of our initial business combination, (d) to satisfy the redemption rights of the holders of Class A Common Stock in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our Public Shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, or (e) in connection with the redemption of our Public Shares upon our failure to complete our initial business combination, then the Warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A Common Stock in respect of such event.

If the number of outstanding shares of our Class A Common Stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Class A Common Stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Class A Common Stock issuable on exercise of each Warrant will be decreased in proportion to such decrease in outstanding shares of Class A Common Stock.

Whenever the number of shares of Class A Common Stock purchasable upon the exercise of the Warrants is adjusted, as described above, the Warrant exercise price will be adjusted by multiplying the Warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A Common Stock purchasable upon the exercise of the Warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A Common Stock so purchasable immediately thereafter.

In case of any reclassification or reorganization of the outstanding shares of Class A Common Stock (other than those described above or that solely affects the par value of such shares of Class A Common Stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A Common Stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the Warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the Warrants and in lieu of the shares of our Class A Common Stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the Warrants would have received if such holder had exercised their Warrants immediately prior to such event. If less than 70% of the consideration receivable by the holders of Class A Common Stock in such a transaction is payable in the form of Class A Common Stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the Warrant properly exercises the Warrant within thirty days following public disclosure of such transaction, the Warrant exercise price will be reduced as specified in the Warrant Agreement based on the Black-Scholes value (as defined in the Warrant Agreement) of the Warrant. The purpose of such exercise price reduction is to provide additional value to holders of the Warrants when an extraordinary transaction occurs during the exercise period of the Warrants pursuant to which the holders of the Warrants otherwise do not receive the full potential value of the Warrants in order to determine and realize the option value component of the Warrant. This formula is to compensate the Warrant holder for the loss of the option value portion of the Warrant due to the requirement that the Warrant holder exercise the Warrant within 30 days of the event. The Black-Scholes model is an accepted pricing model for estimating fair market value where no quoted market price for an instrument is available.

The Warrants are issued in registered form under the Warrant Agreement. You should review a copy of the Warrant Agreement, which is incorporated by reference as an exhibit to the Annual Report on Form 10-K of which this Exhibit 4.5 forms a part for a complete description of the terms and conditions applicable to the Warrants. The Warrant Agreement provides that the terms of the Warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding Public Warrants to make any change that adversely affects the interests of the registered holders of Public Warrants.

The Warrant holders do not have the rights or privileges of holders of Class A Common Stock and any voting rights until they exercise their Warrants and receive shares of Class A Common Stock. After the issuance of shares of Class A Common Stock upon exercise of the Warrants, each holder will be entitled to one (1) vote for each share held of record on all matters to be voted on by stockholders.

No fractional shares will be issued upon exercise of the Warrants. If, upon exercise of the Warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number of shares of Class A Common Stock to be issued to the Warrant holder.

Private Placement Warrants

The Private Placement Warrants (including the Class A Common Stock issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions to our officers and directors and other persons or entities affiliated with our Sponsor) and they will not be redeemable by us (except as described above under "Redeemable Warrants-Public Stockholders' Warrants-Redemption of Warrants when the price per share of Class A Common Stock equals or exceeds \$10.00") so long as they are held by our Sponsor or its permitted transferees. Our Sponsor, or its permitted transferees, has the option to exercise the Private Placement Warrants on a cashless basis. Except as described below, the Private Placement Warrants have terms and provisions that are identical to those of the Warrants sold as part of the Units in the Initial Public Offering, including as to exercise price, exercisability and exercise period. If the Private Placement Warrants are held by holders other than the Sponsor or its permitted transferees, the Private Placement Warrants will be redeemable by us and exercisable by the holders on the same basis as the Warrants included in the Units being sold in the Initial Public Offering.

Except as described above under “-Public Stockholders’ Warrants-Redemption of Warrants when the price per share of Class A Common Stock equals or exceeds \$10.00,” if holders of the Private Placement Warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering the Warrants for that number of shares of Class A Common Stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A Common Stock underlying the Warrants, multiplied by the excess of the “fair market value” of our Class A Common Stock over the exercise price of the Warrants by (y) the fair market value. The “fair market value” shall mean the average of the last reported sale prices of the Class A Common Stock for the ten trading days ending on the third trading day prior to the date on which the notice of exercise is received by the Warrant agent or on which the notice of redemption is sent to the holders of Warrants, as applicable. The reason that we have agreed that these Warrants will be exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees is because it is not known at this time whether they will be affiliated with us following an initial business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could sell the shares of Class A Common Stock issuable upon exercise of the Warrants freely in the open market, the insiders could be significantly restricted from doing so. As a result, we believe that allowing the holders to exercise such Warrants on a cashless basis is appropriate.

In order to finance transaction costs in connection with an intended initial business combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. Up to \$2,000,000 of such loans may be convertible into Warrants at a price of \$1.00 per Warrant at the option of the lender. Such Warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. The terms of such working capital loans by our Sponsor or its affiliates, or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

Our Sponsor has agreed not to transfer, assign or sell any of the Private Placement Warrants (including the Class A Common Stock issuable upon exercise of any of these Warrants) until the date that is 30 days after the date we complete our initial business combination, except for, among other limited exceptions, transfers made to our officers and directors and other persons or entities affiliated with our Sponsor.

Our Transfer Agent and Warrant Agent

The transfer agent for our common stock and Warrant agent for our Warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and Warrant agent, its agents and each of its stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence, willful misconduct or bad faith of the indemnified person or entity.

Our Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation contains certain requirements and restrictions relating to the Initial Public Offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without the approval of the holders of at least 65% of our outstanding common stock. Our initial stockholders, who collectively beneficially own 20% of our common stock, may participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable law or stock exchange rules, the affirmative vote of a majority of the outstanding shares of our common stock that are voted is required to approve any such matter voted on by our stockholders, and, prior to our initial business combination, the affirmative vote of holders of a majority of the outstanding shares of our Class B common stock is required to approve the election or removal of directors. Specifically, our amended and restated certificate of incorporation provides, among other things, that:

- if we have not completed our initial business combination within 24 months from the closing of the Initial Public Offering, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law;
- prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to: (1) receive funds from the trust account; or (2) vote pursuant to our amended and restated certificate of incorporation on any initial business combination;
- although we do not currently intend to enter into a business combination with a target business that is affiliated with our sponsor, its members, our directors or our officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent and disinterested directors, will obtain an opinion from an independent investment banking firm or from an independent accounting firm that such a business combination is fair to our company from a financial point of view;
- if a stockholder vote on our initial business combination is not required by applicable law or stock exchange rules and we do not decide to hold a stockholder vote for business or other reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the trust account (excluding the amount of any deferred underwriting discount);
- if our stockholders approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, we will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares; and
- we will not effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

In addition, our amended and restated certificate of incorporation will provide that under no circumstances will we redeem our Public Shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriting commissions.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation and Bylaws

We are subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of the Initial Public Offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a "business combination" with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an "interested stockholder");
 - an affiliate of an interested stockholder; or
 - an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.
-

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval (including a specified future issuance) and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Our amended and restated certificate of incorporation provides that prior to our initial business combination, holders of our Class B common stock will have the right to elect all of our directors and may remove members of our board of directors for any reason. As a result, prior to our initial business combination, it is unlikely that any person other than our sponsor will be able to gain control of our board.

Exclusive forum for certain lawsuits

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware, except any action (A) as to which the Court of Chancery in the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, (C) for which the Court of Chancery does not have subject matter jurisdiction, or (D) any action created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder’s counsel. Unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States shall be the exclusive forum for any action arising under the Securities Act. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Our amended and restated certificate of incorporation provides that the exclusive forum provision will be applicable to the fullest extent permitted by applicable law. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction.

Special meeting of stockholders

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by either our President or our Chairman.

Advance notice requirements for stockholder proposals and director nominations

Our bylaws provide for advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors. In order for any matter to be “properly brought” before a meeting, a stockholder will have to comply with advance notice requirements and provide us with certain information. Generally, to be timely, a stockholder’s notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the immediately preceding annual meeting of stockholders. Our bylaws will also specify requirements as to the form and content of a stockholder’s notice. Our bylaws allow the chairman of the meeting at a meeting of the stockholders to adopt rules and regulations for the conduct of meetings, which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These provisions may also defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer’s own slate of directors or otherwise attempting to influence or obtain control of us.

Action by written consent

Subsequent to the consummation of the Initial Public Offering, any action required or permitted to be taken by our common stockholders must be effected by a duly called annual or special meeting of such stockholders and may not be effected by written consent of the stockholders other than with respect to our Class B Common Stock.

Only holders of the founder shares vote to elect directors

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the election of directors. Holders of our Public Shares will not be entitled to vote on the election of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

Listing of Securities

Our Units, Class A Common Stock and Warrants are listed on the NYSE under the symbols “SEAH.U,” “SEAH” and “SEAH WS,” respectively.

**CERTIFICATION PURSUANT TO
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,

I, John Collins, certify that:

1. I have reviewed this annual report on Form 10-K of Sports Entertainment Acquisition Corp (the "registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
